Personal and social services rendered by others to meet the needs of individuals('My Kartavyam' is a project to help citizens of India to participate in local governance. It is a web based application where the citizen can register through their mobile phone and post a picture with a short description.It has drop down categories of issues a common man faces like no electricity, bad roads, unclear garbage, unfinished roads etc all mostly with civic issues. The System will pick up the location details from GPS and automatically post into X (formerly known as Twitter) with some validations. The phone number will be validated through OTP. Authorities can check X (formerly known as Twitter) and act on it. Pictures and text entered will be automatically checked through AI/ML routine.)

Cl.6;Aluminium; vats of metal; beams of metal; joists of metal; bottles [containers] of metal for compressed gas or liquid air; balustrades of metal; blooms [metallurgy]; ingots of common metal; casks of metal; barrels of metal; signboards of metal; works of art of common metal; jerrycans of metal; framework of metal for building; buildings of metal; buildings, transportable, of metal; sheets and plates of metal; common metals, unwrought or semi-wrought; pyrophoric metals; metals in powder form; wall linings of metal for building; building panels of metal; partitions of metal; wall tiles of metal; tiles of metal for building; armour-plating of metal; paving blocks of metal; roof coverings of metal; cladding of metal for building; linings of metal for building; aluminium wire; wire of common metal; wire of common metal alloys, except fuse wire; rods of metal for welding; rods of metal for brazing and welding; peeled metal bars; drawn and polished metal bars; containers of metal for liquid fuel; containers of metal for compressed gas or liquid air; tanks of metal; floating containers of metal; alloys of common metal; pipes of metal; metals in foil or powder form for 3D printers; foils of metal for wrapping and packaging; aluminium foil.

Cl.7;Journal boxes [parts of machines]; machine wheels; stuffing boxes [parts of machines]; grease boxes [parts of machines]; die-stamping machines; hangers [parts of machines]; pistons [parts of machines or engines]; slide rests [parts of machines]; journals [parts of machines].

Cl.12;Rims for vehicle wheels; vehicle wheels.

Cl.16;Fountain pens; albums; name badges [office requisites]; note books; pads [stationery]; booklets; paper sheets [stationery]; wrapping paper; signboards of paper or cardboard; calendars; pencils; envelopes [stationery]; boxes of paper or cardboard; flyers; graphic prints; food bags of paper or plastics; conical paper bags; posters; inkstands; writing materials; writing instruments; drawing materials; printed matter.

Cl.26;Badges for wear, not of precious metal; competitors' numbers.

Cl.35;Organization of exhibitions for commercial or advertising purposes; sales promotion for others; promotion of goods and services through sponsorship of sports events; promotion of goods through influencers.

Cl.1;Biocompatible plasmonic and magnetoelectric nanoparticles being active chemical ingredients / biochemical products, other than for medical purposes, for use in brain-computer interface (BCI) systems that are used for integration with human brain tissue to enable non-invasive stimulation and recording of neural activity and for real-time diagnostics for enhanced neurological treatments.

Cl.9;Wearable electronic devices and brain-computer interface (BCI) systems featuring biocompatible nanoparticles for the stimulation and recording of neural activity, signal capture and transmission, thought-controlled digital device interaction, enhanced human-machine integration, real-time brain activity monitoring, cognitive function enhancement, cognitive rehabilitation therapies, and improved accessibility for individuals with physical limitations; downloadable and recorded software for use with brain-computer interface (BCI) devices and systems, enabling non-invasive neural activity stimulation and recording, signal capture and transmission, thought-controlled digital device interaction, enhanced human-machine integration, real-time brain activity monitoring, cognitive function enhancement, cognitive rehabilitation therapies, and improved accessibility for individuals with physical limitations; downloadable mobile applications for use with brain-computer interface (BCI) devices and systems, facilitating non-invasive neural activity stimulation and recording, signal capture and transmission, thought-controlled digital device interaction, enhanced human-machine integration, real-time brain activity monitoring, cognitive function enhancement, cognitive rehabilitation therapies, and improved accessibility for individuals with physical limitations; downloadable software development kits (SDKs) for creating applications that utilize brain-computer interface (BCI) technology for neurological treatment and human-machine interaction.

Cl.10;Medical devices featuring non-surgical, biocompatible nanoparticles for the treatment of neurological and neurodegenerative diseases through targeted brain stimulation; brain-computer interface devices for medical use, designed to restore motor functions and enhance cognitive rehabilitation therapies; health monitoring devices utilizing brain-computer interface (BCI) technology for real-time brain activity analysis and diagnostics, aiding in the treatment and understanding of neurological disorders; devices for providing neurofeedback and biofeedback, supporting therapeutic interventions and cognitive enhancement.

Cl.42;Software as a service (SaaS) services featuring non-downloadable software for use with brain-computer interface (BCI) devices and systems, enabling non-invasive neural activity stimulation and recording, signal capture and transmission, thought-controlled digital device interaction, enhanced human-machine integration, real-time brain activity monitoring, cognitive function enhancement, cognitive rehabilitation therapies, and improved accessibility for individuals with physical limitations; research and development services in the field of brain-computer interfaces and biocompatible nanoparticle technology for enhancing human cognition and interaction with technology; providing technology-based services utilizing brain-computer interface (BCI) systems for real-time neural activity monitoring, aiding in the early detection and diagnosis of neurological conditions; software design and development services for brain-computer interface (BCI) applications, including those for medical treatment, cognitive enhancement, and human-machine interaction; technology consultation in the fields of brain-computer interface (BCI) and biocompatible nanoparticle technology, focusing on non-invasive methods for neural stimulation and recording.

Cl.44;Providing medical and therapeutic services using non-invasive brain-computer interface (BCI) technology, including neurofeedback, cognitive enhancement, and brain health monitoring; health monitoring and diagnostic services involving brain-computer interface (BCI) technology for the detection, diagnosis, and treatment of neurological conditions; medical consultation services utilizing brain-computer interface (BCI) technology for enhancing treatment plans and cognitive rehabilitation therapies.
