Cl.39;Transport; car transport; driverless car transport; consultancy relating to driverless car transport; consultancy relating to the storage and transportation of goods; providing information relating to car transport; logistics services consisting of the storage, transportation and delivery of goods; providing information relating to warehousing services; tracking of transport vehicles by computer for transport information service; tracking of automobile fleets using electronic navigation and locating devices for transport information services; fleet management services in the nature of car transport information services and tracking of transportation vehicles by computers; transportation logistics, namely, storage, transportation and delivery of goods for others by air, rail, ship or truck; logistics services consisting of the transportation and warehousing of goods; distribution of energy; information and advisory services in relation to the distribution of energy; storage, distribution and supply of energy and fuel; distribution of gas; storage of gas; transportation and storage of gas; consultancy services relating to the transportation and storage of gas, oil and chemicals; computerized tracking and tracing of packages in transit; tracking of passenger vehicles by computer (transport information); computerized transportation information services; tracking of passenger or freight vehicles using computers or global positioning systems (transport information); freight transportation by truck; loading of freight containers onto trucks; rental of navigational systems; transmission of oil or gas through pipelines; transport by pipeline; providing information about temporary storage services; vehicle transport and rental services; global transportation of freight for others by all available means; providing vessel mooring facilities; providing information relating to vessel mooring facilities; storage; consultancy services relating to storage; providing information relating to storage; rental of storage facilities; warehousing; warehousing information; storage of frozen food in warehouses; warehousing information; providing information relating to the rental of refrigerator-freezers; refrigerated transportation of frozen goods; rental of freezers; frozenfood locker rental; refrigerated storage; transportation and distribution of natural gas and liquefied gas; transport and storage of trash; distribution of energy for heating and cooling buildings; refrigerated storage of goods; transportation, packing and storing of goods; consultancy relating to the transportation, packaging, and storage of goods; car transport; car transport and provision of information

relating thereto; vehicle-driving services; providing information relating to vehicle driving services; air transport services; consultancy in the field of air transport; providing information relating to air transport; supply chain logistics and reverse logistics services consisting of the storage, transportation and delivery of goods for others by air, rail, ship or lorry; storage of liquefied natural gas on ships; transportation of liquefied natural gas by sea; ship unloading; stevedoring; unloading cargo; monitoring and tracking of package shipments; monitoring and tracking of package shipments (transport information); providing information relating to cargo unloading services; providing information relating to the transportation of freight; advisory services relating to transportation; providing information about transport services; locating and tracking of people and cargo for transportation purposes; transportation information; rental of self-propelled lifting platforms for transportation purposes; porterage; traffic information; rental of electric bicycles; physical storage of electronically stored data or documents; distribution and transmission of electricity; storage and distribution of electricity; electricity supply services; consultancy services relating to the distribution of electricity; providing information relating to the distribution of electricity.

Cl.42;Software as a service (SaaS) services featuring computer software and providing information, advice and consultancy relating to SaaS services; platform as a service (PaaS) services featuring software platforms and providing information, advice and consultancy relating to PaaS services; infrastructure as a service (IaaS) services featuring hosting servers for use by others and providing information, advice and consultancy relating to IaaS services; software as a service (SaaS) services featuring computer software for connecting, operating, and managing networked electronic data processing devices in the internet of things (IoT) and providing information, advice and consultancy relating to said SaaS services; platform as a service (PaaS) services featuring software platforms for connecting, operating, and managing networked electronic data processing devices in the internet of things (IoT) and providing information, advice and consultancy relating to said PaaS services; infrastructure as a service (IaaS) services featuring hosting servers for connecting, operating, and managing networked electronic data processing devices in the internet of things (IoT) and providing information, advice and consultancy relating to said IaaS services; software as a service (SaaS) services featuring computer software for data communication, management, configuration, installation, fault diagnosis, repair, upgrading, maintenance, remote monitoring and remote control of networked electronic data processing devices in the internet of things (IoT) and providing information, advice and consultancy relating to said SaaS services; platform as a service (PaaS) services featuring software platforms for data communication, management, configuration, installation, fault diagnosis, repair, upgrading, maintenance, remote monitoring and remote control of networked electronic data processing devices in the internet of things (IoT) and providing information, advice and consultancy relating to said PaaS services; infrastructure as a service (IaaS) services featuring hosting servers for data communication, management, configuration, installation, fault diagnosis, repair, upgrading, maintenance, remote monitoring and remote control of networked electronic data processing devices in the internet of things (IoT) and providing information, advice and consultancy relating to said IaaS services; development of computer platforms; web site hosting services; software as a service (SaaS); platform as a service (PaaS); infrastructure as a service (IaaS) services featuring provision of computer software; installation, upgrading and updating of computer software; design, development and consultancy of computer software and providing information thereof; installation, maintenance, updating and upgrading of computer software; consulting services in the field of cloud computing; product quality testing services; quality testing; research and development of new products for others; research and development of new products for others in the field of security guard services, traffic control services, transportation, supply chain logistics services, self-driving transport vehicles, electricity generation, energy saving, storage, distribution and supply of energy and fuel, computer system remote monitoring services, carbon sequestration technology, artificial intelligence (AI) software customization; design and development of new technology for others; design and development of new technology for others in the field of security guard services, traffic control services, transportation, supply chain logistics services, self-driving transport vehicles, electricity generation, energy saving, storage, distribution and supply of energy and fuel, computer system remote monitoring services, carbon sequestration technology, artificial intelligence (AI) software customization; technical research projects and studies; technical research projects and studies in the field of security guard services, traffic control services, transportation, supply chain logistics services, self-driving transport vehicles, electricity generation, energy saving, storage, distribution and supply of energy and fuel, computer system remote monitoring services, carbon sequestration technology, artificial intelligence (AI) software customization; remote monitoring of computer systems for electronic surveillance apparatus used in coast guard and security guard marine vessels; design, development and consultancy of computer software for electronic surveillance apparatus used in coast guard and security guard marine vessels and providing information

thereof; providing on-line non-downloadable software for electronic surveillance apparatus used in coast guard and security guard marine vessels; remote monitoring of computer systems for operating, driving and monitoring railway cars and railbound vehicles; design, development and consultancy of computer software for operating, driving and monitoring railway cars and railbound vehicles and providing information thereof; providing on-line non-downloadable software for operating, driving and monitoring railway cars and railbound vehicles; remote monitoring of computer systems for logistics services consisting of the storage and transportation of goods; design, development and consultancy of computer software for logistics services consisting of the storage and transportation of goods and providing information thereof; providing on-line non-downloadable software for logistics services consisting of the storage and transportation of goods; remote monitoring of computer systems for electric operation control and drive of vehicles; design, development and consultancy of computer software for electric operation control and drive of vehicles and providing information thereof; providing on-line non-downloadable software for electric operation control and drive of vehicles; remote monitoring of computer systems for apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; design, development and consultancy of computer software for apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity and providing information thereof; providing on-line non-downloadable software for apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; monitoring of computer systems in data center by remote access; design, development and consultancy of computer software for remote monitoring of computer systems in data center and providing information thereof; providing on-line non-downloadable software for remote monitoring of computer systems in data center; computer systems integration services; research in the field of artificial intelligence; technology consultation in the field of artificial intelligence; providing virtual computer systems through cloud computing; remote monitoring of computer systems used for generation of electrical power using carbon sequestration; design, development and consultancy of computer software used for generation of electrical power using carbon sequestration and providing information thereof; providing on-line non-downloadable software used for generation of electrical power using carbon sequestration; remote monitoring of computer systems used for generating, processing and transforming of electrical energy; design, development and consultancy of computer software used for generating, processing and transforming of electrical energy and providing information thereof; providing on-line nondownloadable software used for generating, processing and transforming of electrical energy; technical design services relating to electricity plants; technical design services relating to heating installations; technical design services relating to cooling appliances and installations; design and development of software for control, regulation and monitoring of electrical energy systems; research and development services relating to measuring and regulating technology related to energy consumption in commercial centres, housing areas, manufacturing plants and buildings; research and development services relating to measuring and regulating technology; providing temporary use of online non-downloadable software for monitoring of computer systems by remote access; providing computer programs for generating, processing and transforming of electrical energy, designed to the specifications of others; remote monitoring of computer systems for fault prediction and diagnosis of traffic control computer systems; remote monitoring of computer systems for fault prediction and diagnosis of computer systems used for controlling industrial plants and power plants; remote monitoring of computer systems to provide conservation maintenance services for downtime of computer systems by fault prediction and diagnosis of computers; providing temporary use of online non-downloadable software for traffic control computer systems; providing temporary use of online non-downloadable software used for controlling industrial plants and power plants; providing computer programs for traffic control computer systems, designed to the specifications of others; providing computer programs for controlling industrial plants and power plants, designed to the specifications of others; monitoring of computer systems for detecting unauthorized access or data breach; computer security threat analysis for protecting data; design and development of electronic data security systems; data security consultancy; providing temporary use of online non-downloadable software for electronic data security; providing computer programs for electronic data security, designed to the specifications of others; design and development of energy distribution networks; engineering services in the field of energy technology; consultancy relating to technological services in the field of power and energy supply; providing online non-downloadable software for use in supply chain management; providing temporary use of on-line non-downloadable software for inventory management; remote monitoring of computer systems for inventory management; remote monitoring of computer systems for energy supply; monitoring of telecommunication signals; monitoring of computer systems by remote access; remote monitoring of computer systems for

temperature control of cold chain logistics, namely, low temperature-controlled supply chain logistics; consultancy in the field of energy-saving; technical consultancy in the field of energy saving and energy efficiency; research in the reduction of carbon emissions; providing temporary use of online non-downloadable software for management of logistics services; providing computer programs for management of logistics services, designed to the specifications of others; remote monitoring of computer systems for fault prediction and diagnosis of computer systems for management of logistics services; remote monitoring of computer systems for controlling temperature of the storage of goods in logistics services; remote monitoring of computer systems for controlling temperature of the storage of goods in cold chain logistics, namely, low temperature-controlled supply chain logistics; testing the functionality of apparatus and instruments; testing the functionality of machines; computer-aided scientific research, testing and analysis services; vehicle roadworthiness testing; inspection of motor vehicles for roadworthiness; automotive design; creation of control programs for automated measurement, assembly, adjustment and related visualization; providing temporary use of online non-downloadable software for automated driving support system for vehicles; providing computer programs for automated driving support system for vehicles, designed to the specifications of others; remote monitoring of computer systems for fault prediction and diagnosis of computer systems for automated driving support system for vehicles; design and development of software for inventory management services; design and development of computer software for logistic services; development of computer software for logistics, supply chain management and e-business portals; design and development of navigation systems and route planning software; design, testing, development and consultancy of computer software and control programs for electric operation control and drive modules for driverless cars, automatic guided vehicles (AGV), automatically guided (driverless) material handling forklift trucks and providing information, advice and consultancy therefor; providing temporary use of online nondownloadable software via the internet for management and control of driverless cars.

Cl.6;Pipes, tubes and hoses, and fittings therefor, including valves, of metal; regulating valves of metal other than parts of machines; check valves of metal, not being parts of machines; manually operated metal valves; metal valves for controlling the flow of fluids in pipelines; water-pipe valves of metal.

Cl.7;Hydraulic turbines; hydroelectric installations for generating electricity; alternators; current generators; power generators; electricity generating units; machines for generating electricity; actuators for valves; valve closure mechanisms; valves; ball valves being parts of machines; valves being parts of machines; pressure reducers being parts of machines; non-return valves of metal being parts of machines; safety valves being parts of machines; hydraulic valves being parts of machines; hydraulic accumulators; hydraulic valves; turbines for power generation.

Cl.9;Electrical control boards; electric control panels; testing and quality control devices; accumulators, electric; electric and electronic security apparatus and instruments; apparatus and instruments for controlling electricity; apparatus and instruments for switching the distribution of electricity; apparatus and instruments for controlling the distribution of electricity; apparatus and instruments for regulating the use of electricity; electricity measuring instruments; apparatus and instruments for transforming the distribution of electricity; apparatus, instruments and cables for electricity; electrical switch cabinets; electrical circuits and circuit boards; electricity conduits; converters, electric; electricity indicators; electricity limiters; electricity inverters; panels for the control of electricity; voltage regulators for electric power; electricity transformers; electric power controllers; electrical power control equipment; energy management software; energy control devices; apparatus and instruments for accumulating and storing electricity; electric control valves; system units for the analysis of hydroelectric power plants; software for monitoring, analysing, controlling and operating the physical operations of hydroelectric power plants on a global scale; electronic remote control apparatus; electrical remote control apparatus; programmable control apparatus; network controlling apparatus.

Cl.11;Plumbing fittings, namely, valves; ball valves; stop valves being safety apparatus for water apparatus; stop valves for regulating water; water regulating valves [regulating accessories]; water control valves; safety valves for water pipes; regulating accessories for water installations.

Cl.37;Installation of hydropower systems; construction of hydropower plants; construction of hydropower infrastructure; installation of hydropower generation equipment; installation of electrical and generating machinery; maintenance, overhaul and repair of hydroelectric power generation equipment and installations; consultancy services on the installation of hydroelectric power plants; repair of hydroelectric power plants and equipment; reconditioning of hydroelectric power generation equipment; refurbishment of hydroelectric power generation equipment; repair of turbines and electric generators; maintenance and repair of turbines.

Cl.42;Quality checking and testing; testing, authentication and quality control; process monitoring for quality assurance; technical design and planning of hydroelectric power plants; scientific and industrial research in particular in the field of electricity; engineering services in the field of hydropower production; technical design services in the field of hydropower plants; development of energy and power management systems; technological consultancy in the fields of energy production and use; conducting research and technical project studies relating to the use of natural energy; engineering services in the field of energy technology; design and development of software for control, regulation and monitoring of hydropower plants; creation of control programs for electric operation control and drive modules; programming of electronic control systems; monitoring of network systems; design and development of regenerative energy generation systems.

Cl.7;Industrial robots; robotic apparatus for handling materials; robotic mechanisms for lifting, robotic mechanisms being parts of loading-unloading machines and apparatus; lifting and hoisting equipment; conveyors and conveyor belts; joysticks being parts of machines, other than for game machines; handles, especially, ball handles, for use in relation to the following goods: joysticks being parts of machines; drive units, for use in relation to the following goods: joysticks being parts of machines; control apparatus, switching equipment, for use in relation to the following goods: construction machines, forestry machines, agricultural machines; pedals, for use in relation to the following goods: manufacturing machines; robots with articulated arms for manipulating workpieces; self-driving robots for industrial use; control stands, for use in relation to the following goods: cranes; pedals, for use in relation to the following goods: work machines; seating units, for use in relation to the following goods: work machines; control stands and control columns, for use in relation to the following goods: work machines; steering wheels, for use in relation to the following goods: work machines.

Cl.9;Electric apparatus for commutation; thumbwheels, for use in relation to the following goods: electric apparatus for commutation; cross keys and push buttons, for use in relation to the following goods: electric apparatus for commutation; electric steering wheel levers; electronic touch sensitive switches; limit switches, especially gear limit switches; control devices, in particular electronic controllers; electrical and electronic components, in particular

electric apparatus for commutation, electric and electronic switches; peripherals adapted to computers, smartphones, smart bands, smart TVs or smart watches, especially computer joysticks, interactive displays; input devices, for use in relation to the following goods: display screens, especially display controllers; computer systems for automated vehicle control; autonomous driving control systems for vehicles; software for the operation of electrical switch apparatus and the operation of unmanned conveyor vehicles; lighting control apparatus; industrial automation software; seat controls; electric control panels; portable control consoles; displays, for use in relation to the following goods: vehicles and work machines; touch sensitive control panels; touch sensitive electronic screens; motion sensing input devices; potentiometers, especially hall-effect potentiometers; contactless buttons, especially, hall effect buttons; opto-electronic encoders; electric steering joysticks, for vehicles; sensors, for use in relation to the following goods: joysticks being parts of machines; signaling lamps, in particular emergency light bars, for vehicles; electrical switching apparatus, for use in relation to the following goods: water vehicles, rail vehicles, vehicles for use on land.

Cl.11;Vehicle lighting and lighting reflectors, especially lighting apparatus for vehicles, vehicle headlights, vehicle reflectors, brake lights for vehicles, light bulbs for directional signals for vehicles, LED lighting for vehicles.

Cl.12;Vehicles and conveyances; unmanned conveying vehicles; apparatus for locomotion by land, air or water; control stands, for use in relation to the following goods: water vehicles, rail vehicles, vehicles for use on land; vehicle joysticks; seats, for use in relation to the following goods: automotive vehicles, water vehicles, rail vehicles; control stands and control columns, for use in relation to the following goods: water vehicles, rail vehicles, vehicles for use on land; control devices, for use in relation to the following goods: water vehicles, rail vehicles, vehicles for use on land; steering wheels for vehicles; steering wheels, for use in relation to the following goods: vehicles and ships; vehicle pedals; joysticks for ships; steering apparatus for ships; transportation robots.

Cl.37;Maintenance, repair and servicing, in relation to the following goods: driverless conveying vehicles, industrial robots, joysticks [machine parts], conveyors, electric apparatus for commutation, control devices, seats, control stands, lighting and vehicle signal lamps.

Cl.42;Software design and development; computer software consultancy; hosting services, software as a service [SaaS], and rental of software; engineering, namely development of controls for machines and vehicles; development of the following goods: controls, especially, steering devices, switching apparatus, for use in relation to the following goods: vehicles, ships, airplanes and machinery; development of the following goods: industrial robots; development of the following goods: automation systems for manufacturing; development of the following goods: conveying vehicles and conveyors.

NOTICE

व्यापार चिन्ह के पंजीकरण के लिए आवेदक तथा इसके अभिकर्ताओं से विशेष रूप से यह प्रार्थना की जाती है कि पत्राचार करते समय संबंधित व्यापार चिन्ह रजिष्ट्री कार्यालय का संपूर्ण संदर्भ, पत्र संख्या, तारीख, आवेदन संख्या तथा संबंधित वर्ग कि संख्या का जरूर उल्लेख करें जिससे कि पत्रों के यथाशीघ्र निपटान करने में सुविधा होगी

Applicants for registration of Trade Marks and their agents are particularly requested to quote in their replies full and complete Reference Letter No. and date, application number and the class to which it relates and send to the concerned office of Trade Marks Registry. This would facilitate quick disposal of letters.

श्री उन्नत पंडित
