Cl.9; **Scientific, electric and electronic control apparatus and instruments, included in this class; photographic, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; fire-extinguishing apparatus; electric and electronic alarm installations, alarm clocks, central alarm posts and stations; electric and electronic apparatus and installations for security and access supervision; apparatus for monitoring and controlling industrial processes; apparatus for recording time and presence; cameras for closed-circuit televisions; apparatus for access security and supervision; electric and electronic apparatus for recording, processing, transmission, storage and production of data; checking (supervision) and data receiving apparatus; time delay relays, included in this class; electric and electronic apparatus for remote ignition; batteries for lighting; electronic security systems; electronic keys; remote controls; security systems which continuously monitor the protected transport of securities; security systems which enable abnormal situations to be detected and, where appropriate, the securities to be destroyed or rendered unusable; safety and protection systems used during transport and storage of securities; systems for recording and locating vehicles which are transporting securities; computer software for all the aforesaid goods; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; computers and computer peripheral devices; fire alarms; alarm sensor; alarms; alarm installations; security alarms; smoke alarms; cameras [photography]; monitors [computer hardware]; monitors [computer programs]; monitoring apparatus, other than for medical purposes; security surveillance robots; scientific apparatus and instruments; electric and electronic security apparatus and instruments; electrical delay lines; electric apparatus for remote ignition; safety, security, protection and signaling devices; alarms and warning equipment; protective and safety equipment; sensors, detectors and monitoring instruments; application software; software; apparatus providing night vision; fire escapes; radio transceivers; switches, electric; thermostats; data storage devices and media; global positioning instruments; sirens; data storage media; databases; electrical control boards; cloud servers; computer components and parts; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; safety, security, protection and signalling devices; access control devices; navigation, guidance, tracking, targeting and map making devices; measuring, detecting, monitoring and controlling devices; seismograph, vibration monitor, analyzer and electronic display instruments for structures such as buildings; vibration sensors; recorders of vibrations in structures caused by explosive blasts; computer programs for analysis and display of blast-related signals; blast sensors; signal amplifiers; probes for measuring detonation velocity and explosives; power supplies, printers, plotters and parts thereof; panic buttons; electric and electronic locks; electric and electronic door locks; electric and electronic door strikes; electronic door controllers; digital transmitters, receivers, sensors, monitors, pagers interface screens and display screens used in combination as a location system for patients, inmates or personnel and parts thereof; apparatus, instruments or sensors for locating patients; apparatus, instruments or sensors for identifying the location of patients; parts, fittings and accessories for all the aforesaid goods; transmitters; receivers; antennae; displays, signal processors, control consoles for security systems and devices, radio beacons, cables, acoustic alarms transducers; optical fiber cable; security and protection systems comprised of personal digital assistants in the shape of a bracelet or pendant for wireless transmission, an electronic receiving unit, and one or more video and/or audio perimeter monitors and/or wireless monitors; portable electronic system comprising a position responsive switch and control unit having an audible alarm for indicating when an occupant of a chair is about to exit the chair; electronic systems, namely smart bed pad alarm systems with weight sensor connected by wire to a control timer, which is connected by wire to the existing nurse-call system for monitoring the activity of persons in beds, including medical patients and nursing home residents; wireless call system comprised of a central computer, wireless receiver, non-locating repeater, locating repeater, wall switch, fixed call transmitter, wireless smoke detector, universal transmitter, guard tour transmitter, directory transmitter, alpha-numeric display and universal transmitter with magnetic switch for use in the healthcare industry; security protection system comprised of wireless bracelets and one or more perimeter monitors; computer hardware and computer software adapted for inventory control purposes, or being adapted for use as part of an inventory control and replenishment system; electronic tags for inventory control purposes, electronic tags for identification and control purposes, electronic tags, electronic identification cards and communication devices adapted for use with radio frequency identification apparatus; barcode readers, electronic tags; radio frequency identification tag readers; storage containers adapted for computer discs, or for computer diskettes, or for electronic tags, or for barcode readers; locks (electric) with alarms; tele-radio controls for electronic burglar alarms; electric locking devices; apparatus, instruments or devices adapted for use in location or motion detection, or being in the nature of panic alarms; batteries, battery packs, power packs and battery chargers; tripods; binoculars; cameras; spectacles, spectacle frames, spectacle cases, spectacle lenses, protective spectacles, eye protection; magnifying glasses; clothing for protection against accident and injury; protective footwear; boots, shoes and footwear all for protection against accident or injury; encoded record tokens, electronic tags and encoded cards adapted for use in or with computers, or for use in or with electronic data processing equipment, or for use in or with microprocessor control apparatus, or for use in or with token reading apparatus; parts and fittings for all of the aforesaid goods; downloadable virtual goods, namely, safety, security, protection**

and signalling devices, alarms and warning equipment, security cameras, fire extinguishers, fire-extinguishing apparatus, fire alarms, alarm sensors, security alarms, smoke alarms, monitors and instruments for recording, transmitting, reproducing or processing sound, images or data, all for use online and in online virtual worlds.

Cl.10;Surgical, medical, dental and veterinary apparatus and instruments; artificial limbs, eyes and teeth; orthopaedic articles; suture materials; therapeutic and assistive devices adapted for persons with disabilities; massage apparatus; apparatus, devices and articles for nursing infants; apparatus, instruments or sensors, for monitoring purposes for medical use; patient monitoring instruments, patient monitoring sensors and alarms, sensor apparatus for medical use in monitoring the vital signs of patients; nurses" trolleys adapted to contain drugs and medical supplies for dispensing to patients; trolleys adapted to contain drugs and medical supplies for dispensing purposes; trolleys adapted to contain drugs and medical supplies for use with inventory control and replenishment systems in the healthcare and medical fields, and parts, fittings and accessories for all the aforesaid goods.

Cl.35;Advertising; business management; business administration; office functions; business management services, brand management services, commercial management services; placement of personnel for remuneration for protection against theft, fire and other damage; placement of personnel employed to protect against theft, fire and other damage; telephone answering services; consumer information online in relation to alarm and guard services; receptionist services (telephone answering services); accounting services; arranging subscriptions to security services; retail store services featuring virtual goods, namely, safety, security, protection and signalling devices, alarms and warning equipment, security cameras, fire extinguishers, fire-extinguishing apparatus, fire alarms, alarm sensors, security alarms, smoke alarms, monitors and instruments for recording, transmitting, reproducing or processing sound, images or data, all for use online and in online virtual worlds.

Cl.37;Construction, repair and maintenance of electric and electronic apparatus and installations, security apparatus, alarm apparatus, devices and installations, central alarm stations and security systems, apparatus and installations, identification material; alarm systems assembly; assembly, maintenance and repair of protection, alarm and identification material and of all preventive and protective equipment necessary for security in all areas; construction, installation, repair and maintenance of electric and electronic apparatus and installations, security apparatus, alarm apparatus, devices and installations, central alarm stations and security systems, apparatus and installations, cash dispensers, identification material; updating, upgrading and maintenance of computer hardware and security systems; installation, maintenance and repair services; installation, maintenance and repair of centralized security monitoring apparatus and instruments; installation, maintenance and repair of office machines and equipment; installation, maintenance and repair of computers; installation, maintenance and repair of computer systems, of microprocessor based control apparatus, of token reading apparatus, of electronic access control systems and electronic authorization systems; computer support services being installation, repair and maintenance of computer hardware and peripherals; building construction; hiring, maintenance and repair of machinery, tools, and spare parts for tools and power tools for use in construction; tool repair services, tool reconditioning services, tool cleaning services, repair of machinery or of machinery installations, reconditioning of machinery or of machinery installations, cleaning of machinery or of machinery installations; advisory or information services relating to repair, maintenance, construction, or carpentry, (whether or not provided online from a computer database or the internet); provision of information, advisory and consultancy services relating to repair, maintenance, construction or carpentry via a website on the internet; installation, maintenance and repair of alarms; installation, maintenance and repair of centralized security monitoring apparatus and instruments, office machines and equipment, computers, computer system hardware, microprocessors-based control apparatus, token reading apparatus, electronic access control systems and electronic authorization systems.

Cl.42;Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; technical consultancy; engineering services relating to computers; consultancy in the field of computers; cloud storage services for electronic data; online data storage; hosting services, software as a service, and rental of software; platform as a service [PaaS]; technical research; research in the field of physics; research and development services in the field of chemistry; data mining; authentication services; consultancy services relating to geotechnical research; design, updating and maintenance of computer software; technical consultancy and support services concerning computerised security systems; engineering, chemistry and physics services; drawing up of expert reports by engineers; research and development in the field of the above services; consultancy and information in the field of the above services; installation of computer software; user authentication services using single sign-on technology for online software applications; consultancy in the design and development of computer hardware; computer security consultancy; data security consultancy; internet security consultancy; IT services; IT security, protection and restoration; advisory services relating to software and maintenance of software, advisory services relating to software and maintenance of software in computerised inventory control; advisory services relating to software and maintenance of software in computerized inventory control and replenishment services; advisory services relating to software and maintenance of software in computerised inventory preparation; advisory services relating to software and maintenance of software in inventory management services, advisory services relating to software and maintenance of software in services relating to the management and replenishment of inventories; design, maintenance, rental and updating of computer software; computer programming, computer system design, computer design and development, computer security consultancy; computer rental; computer programming; design of computer hardware; consultancy in the field of computer hardware; computer systems analysis; computer software design; computer consultancy; design, maintenance, rental and updating of computer software for use in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; computer programming services relating to electronic access control systems, electronic door access controllers or electronic key access control apparatus; computer design and development services relating to electronic access control systems, electronic door access controllers or electronic key access control apparatus; computer rental for use in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; computer programming in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; design of computer hardware for use in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; consultancy in the field of computer hardware in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; computer systems analysis in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; computer software design in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; computer consultancy in connection with electronic access control systems, or in connection with electronic door access controllers or in connection with electronic key access control apparatus; technological consultancy relating to electronic access control and authorisations; technological consultancy relating to electronic door access control and authorisations; computer system monitoring services; condition monitoring services relating to security apparatus and instruments; condition monitoring relating to fluids; machine condition monitoring; environmental monitoring services; environmental monitoring of waste storage areas or of waste treatment areas, or of waste disposal areas; monitoring of

activities which influence the environment; monitoring of computer systems; monitoring of computer systems by remote access; monitoring of networks.

Cl.1; **Heat radiation coatings for LED; surface-coating chemicals for OLED; surface-coating chemicals for PDP; silicone surfactants for industrial purposes; chemical preparations for use in industry; chemicals for use in the manufacture of optical fibers; silicon; graphene; chemical compositions for metal plating; silanes for use in manufacture of semiconductors and solar batteries; dopants for use in the manufacture of semi-conductors; chemical source material for the deposition of thin films upon semiconductor wafers for the manufacture of semiconductors; etchants for use in the manufacture of semiconductors; gas for use in the processing semiconductors; filtering materials of chemical substances; organic industrial chemicals; organometallic compounds; chemical oxidants for use in the manufacture of printed circuits; chemical auxiliary agents for printed circuit board plating; chemical agents for printed circuit board plating; chemical coatings used in the manufacture of printed circuit boards; chemical additives for use in manufacture; detergents for industrial use as part of manufacturing operations; catalysts for use in chemical processes; chemicals and adhesives for use in industry; metalloids; silicones; graphite for industrial purposes; unprocessed artificial resins for LED ceiling; unprocessed artificial resins for industrial use; unprocessed plastics for industrial use; unprocessed plastics in all forms; unprocessed silicone resins; unprocessed epoxy resin; unprocessed thermoplastic resins; unprocessed artificial and synthetic resins; artificial resins, unprocessed; conductive resins, unprocessed; polymer resins, unprocessed; unprocessed polymer resins for use in the manufacture of liquid crystal displays; masking compounds for use in the manufacture of printed circuit boards; unprocessed artificial resins for use in manufacture.**

Cl.7; **Metal surface galvanizing apparatus; molds [parts of machines]; multipolar sputtering apparatus for manufacturing LCD/PDP/semiconductor/LCD/solar cells and LED; laser evaporation/sublimation apparatus being part of machines for manufacturing LCD, PDP, semiconductor, LCD, solar cells and LED; roll evaporation apparatus being part of machines for manufacturing LCD/PDP/semiconductor/LCD/solar cells/LED; ion beam sputter evaporation apparatus being part of machines for manufacturing LCD/PDP/semiconductor/LCD/solar cells and LED; electronic beam crystallizing apparatus for**

manufacturing LCD/PDP/semiconductor/LCD/solar cells and LED; LED sapphire grinder processors; LED sapphire wafers processors; LED wire-saw processors; LED manufacturing sputtering apparatus; etching apparatus for manufacturing LED; atomic layer deposition [ALD] machines for manufacturing LED; evaporation apparatus being part of machines for manufacturing LED; etching apparatus for manufacturing OLED; atomic layer deposition [ALD] for manufacturing organic light emitting diodes [OLED]; evaporation apparatus being part of machines for manufacturing OLED; OLED manufacturing apparatus; apparatus for manufacturing display; laminator apparatus for manufacturing display; laser processing apparatus for manufacturing display; etching apparatus for manufacturing display; laminator apparatus for processing display; heat treating apparatus being parts of machines for display membrane; display membrane forming machines; laser etching machines; memory chip manufacturing machines; semiconductor processing machines; laser marking machines for semiconductor lead frame; laser cleaning machines for semiconductor lead frame; automatic molding machines for semiconductor lead frame; trimming machines for semiconductor lead frame; forming machines for semiconductor lead frame; machines for manufacturing semiconductors; semiconductor exposure apparatus for use in manufacture; laminating machines for manufacturing semiconductors; laser processing machines for manufacturing semiconductors; marking machines for manufacturing semiconductors; linear motion guideway for semiconductor processing machines; fluid dispensers for semiconductor processing machines; nozzle for fluid dispensers for semiconductor processing machines; sprays for fluid dispensers for semiconductor processing machines; cartridges for fluid dispensers for semiconductor processing machines; plungers for fluid dispensers for semiconductor processing machines; needle adaptors for fluid dispensers for semiconductor processing machines; caps for fluid dispensers for semiconductor processing machines; tips for fluid dispensers for semiconductor processing machines; laminating machines for semiconductor processing machines; semi-conductor substrates manufacturing machines; vacuum chambers for processing semiconductor substances; transporters [conveyors] for semiconductor elements; semiconductor wafer processing machines; semiconductor wafer processing equipment; laser cutters for manufacturing semiconductors; printed circuit board processing machines; printed circuit board drilling machines; plasma etching machines; circuit board manufacturing and processing machines; laser steppers being machines for circuit board manufacturing and processing; circuit board manufacturing and processing mask aligner.

Cl.9;USB operating software; computer programs recorded on data media [software] designed for use in construction and automated manufacturing [CAD/CAM]; computer software for controlling self-service terminals; recorded computer game programs; downloadable computer program for managing addresses; downloadable computer application software for cellular phones; computer game software, downloadable; downloadable computer game programs; software for network firewalls; computer software for providing security to networks; computer software for data processing; computer software for databases; software for use in database management; database management software; computer software for database management; computer software for wireless network communications; application software for mobile phones; computer software for digital information/data access; computer software that assists computers in deploying parallel applications and performing parallel computations; computer software for use in processing semiconductor wafers; computer programs for user interface design; software for interactive television; augmented reality software for use in mobile devices; computer application software for cellphones; computer software for encryption; network operating system programs; computer software for remote telecommunication; computer application software for mobile phones; computer programs for data processing; computer software for distributing/monitoring content on the internet; computer game programs downloadable via the Internet; computer programs for the enabling of access or entrance control; computer software for controlling and managing access server applications; computer software for Global Positioning Systems [GPS]; computer programs for connecting remotely to computers or computer networks; computer programs for browsing remotely for content on computers and computer networks; computer programs for searching remotely for content on computers and computer networks; computer operating software; firmware for computer peripherals; computer software to maintain and operate computer systems; floppy disks; disks, magnetic; optical discs; discs bearing computer programs; CD-ls [compact disc interactive]; CD-ROM featuring video game programs; computer diskettes; magnetic tapes bearing computer programs; encoded tapes; telecommunications software; LCD projectors; LED microscopes; magnifying lenses for LED; objectives lenses for LED; microtomes; stand magnifying lenses for LED; LED motion recognition sensor; LED position sensors; precision measuring apparatus; measuring instruments; housings for measuring apparatus; measuring apparatus; plane tables [surveying instruments]; display screen filters adapted for use with televisions; wrist-mounted smartphones; smart rings; smart eyewear; smartwatches; smartphones; foldable smartphones; expandable screen smartphones; mobile phones; LCD large-screen displays; liquid crystal display screens; LCD monitors; color filters for liquid crystal display [LCD] screens; LCDs [liquid crystal displays]; LCD panels; LED inspection apparatus; LED panel for advertisement; LED photoelectric tube; LED manipulator for motion recognition; light emitting diode [LED] displays; electronic display for LED lighting panel; electronic control gears [ECGs] for LED lamps and light fixtures; LED monitors; LED desk lamps display; glass substrates for LED; polaroid film for LED panel; light-emitting diodes [LED] display panels; LED plane panels; LED testing apparatus; LED optical film; OLED [Organic light emitting diode] display panels; conductive film for OLED display; transparent electrode film for OLED display; LCD monitor for display; display inspecting equipment; display screens; display keypads; display terminals; inspection equipment for display panel; display panel driver; display panels and parts thereof; display screen filters; inspection apparatus for display; optical films for displays; non-destructive testing apparatus for displays; digital signage monitors; head-up display apparatus for vehicles; reflective plates for liquid crystal displays; apparatus for measuring and testing the surface defects of sheet for liquid crystal displays; wearable video display monitors; computer display monitors; monitors [computer hardware]; display screen filters adapted for use with computer monitors; anti-glare filters for computer monitors; computer screen filters; filter screens for computer screens; computer touch screens; flexible flat panel displays for computers; display screen filters adapted for use with tablet computers; touch sensitive electronic screens; touch sensitive display and control screens; touch screens; touchscreen monitors; touchscreen sensors; touch panels; touch pads; flat panel display screens; flat panel electroluminescent display screens; plasma display panel [PDP]; optical filters for plasma display panels; plasma display panels; flexible display; conductive film for flexible display; transplant electrode film for flexible display; head-mounted displays; head-mounted video displays; high definition graphic chipsets; LED control devices; LED dot matrix unit; LED modules, other than lighting modules; LED backlight screens; electronic circuit board for LED lighting apparatus; LED circuit; coolers for LED; organic light-emitting diodes [OLED]; quantum dot light-emitting diodes [QLED]; light diodes; optical semiconductors; optical breadboards; structured semi-conductor wafers; diodes; diode arrays; multilayer printed wiring boards; single-crystal silicon wafers; large scale integrated circuits; display elements made of metal fiber fabrics; display elements made of metal fibers; driving IC and power management IC [PMIC] for display; integrated circuits for use in digital signal processors [dsp]; laser diodes; microchips; semi-conductors; semiconductor testing apparatus; optical semiconductor amplifiers; solid-state memories; chip for semiconductor luminous element; semiconductor component; probes for testing semi-conductors; semiconductor devices; semi-conductor memories; semi-conductor memory units; semiconductor elements inspection equipment; semiconductor elements made of metal fabrics; semiconductor elements made of metal textiles; semiconductor elements made of metal powders; shock absorbers for semiconductor element; X-ray inspecting apparatus for semiconductor; inspecting apparatus for semiconductor; non-destructive testing apparatus for semiconductor; testing equipment for semiconductor; silicon carbide single crystal wafers for semiconductor; silicon carbide wafers for semiconductor; semiconductor wafers; semiconductor wafer inspection apparatus; light-emitting diodes [LED]; silicon wafers; machine and equipment for inspecting wafers; equipment for inspecting wafers; printed electronic circuits; test adapters for testing printed circuit boards; testing apparatus for testing printed circuit boards; test pins for testing printed circuit boards; electrical circuit boards; electronic integrated circuits; transistors [electronic]; electronic semi-conductors; electronic application machine and equipment for

inspecting semiconductor package; electronic control circuits; electronic chips; electronic circuits; electronic circuit board; electronic circuit boards; integrated circuits; integrated circuit module; circuit boards provided with integrated circuits; silicon wafers for integrated circuits; wafers for integrated circuits; chips [integrated circuits]; flexible printed circuit boards; radiant heating member for flexible printed circuit boards; shim plate of stainless steel for flexible printed circuit boards; hybrid integrated circuits; hybrid circuits; circuit boards; copper panels for circuit boards; circuit distributors; circuit testing instruments; pellets for testing semiconductor elements; jigs for testing semiconductor elements; chamber for testing semiconductor elements; semiconductor elements aging testing equipment.

Cl.35;Intermediary services relating to advertising; dissemination of advertising matter; publication of publicity materials and texts; organization of advertising events; digital advertising services; marketing and promotional services; marketing; banner advertising; real estate advertising; real estate marketing; on-line marketing; advertising via electronic media; product marketing; advertising for the recruitment of personnel; promotional advertising services; advertising services relating to cosmetics; business advice relating to marketing; marketing research and studies; marketing, market research and market analysis; database management; compilation of information into computer databases; compilation and systematization of information in databanks; compilation and systemization of information into computer databases; systemization of information into computer databases; computer database management; systemization of information in computer databases; data search in computer databases; systematization of data in computer databases; collection and systematization of information in computer databases; updating and maintenance of data in computer databases; compiling of information into computer databases; computer file management; management and compilation of computerised databases; data search in computer files for others; computerised register management; computerized database management; business file management; computerized file management.

Cl.37;Installation and repair of hardware in the field of IT network systems; maintenance and repair of hardware for computer networks; installation of computer hardware for network access servers; repair of computer hardware for network access servers; maintenance of computer hardware for network access servers; maintenance of data processing apparatus; installation of data processing apparatus; repair or maintenance of semi-conductor manufacturing machines and systems; installation of hardware for computer network systems and devices; installation of hardware for computer networks; maintenance and repair of computers; installation of hardware for computer network systems; maintenance of hardware for computer network systems and devices; maintenance and repair of computer network devices; installation of computer network devices; repair of computer network devices; maintenance of computer network devices; installation, repair and maintenance of computers and computer peripherals; repair or maintenance of computers; repair of computers; installation of computer equipment; repair of computer equipment; maintenance of computer equipment; installation of hardware for computer systems; repair of computer apparatus; installation of computer apparatus; maintenance of computer apparatus; repair and maintenance of telecommunication networks, apparatus, and instruments; installation, maintenance and repair of computer hardware; repair of computer hardware; upgrading of computer hardware; computer hardware maintenance and repair.

Cl.40;Processing of synthetic resins; finishing of synthetic resins; providing information relating to the rental of metal treating machines and tools; rental of metal treating machines and tools; abrasive polishing of metal surfaces; heat treatment of metal surfaces; treatment and coating of metal surfaces; coating of metal surfaces using physical vapor deposition or chemical vapor deposition processes; coating of metal surfaces using physical vapor deposition processes; custom manufacturing of molds for semiconductor; electroplating; processing of electronic component mold; processing of optical fibers; processing of semiconductors; processing of semiconductor masks; custom manufacturing and assembling services relating to semi-conductor parts and integrated circuits; processing of semiconductor elements; processing of semiconductor testing apparatus; etching of semiconductors; processing of semiconductor wafers; custom manufacture of semiconductor wafers; processing of semiconductor equipment and parts; processing of parts for semiconductor manufacturing; recycling of semiconductor manufacturing parts; processing and assembly of semiconductors; encapsulation of semi-conductors; polishing of semiconductors; processing of silicone; processing of printed circuit boards; treatment of printed circuits boards surface; rental of industrial robots for use in manufacturing; custom manufacturing and assembling services relating to semiconductor parts and integrated circuits; processing of chemicals; processing of circuit boards; custom assembling of circuit boards and semiconductors.

Cl.41;Provision of radio and television entertainment services; providing information about cultural activities; organization of cultural shows; entertainer services; providing user reviews for entertainment or cultural purposes; ticket reservation and booking services for entertainment, sporting and cultural events; rental of motion pictures; library services; organization of cultural events; organization of educational events; providing amusement facilities; news reporters services; beauty arts instruction; training in the field of advertising; marketing academies; cooking instruction; academy education services for information and communication; computer database academies; provision of training in connection with computer installation; computer software academies; computer programming academies; computer academies; provision of on-line training; instruction and training services; publication of printed matter, also in electronic form, other than for advertising purposes; publication of books, magazines and other texts, other than publicity texts; on-line publication of electronic books, not downloadable; electronic publication of information on a wide range of topics on-line; publication of books; publication of printed matter in electronic form; electronic publishing services; publication of periodicals; publication of documents in the field of training, science, public law and social affairs; providing online electronic publications, not downloadable; educational services; distance learning services provided on-line; distance learning services; distance learning courses; rental of educational material and apparatus; dissemination of educational material; arranging and conducting of seminars, congresses, conferences and symposiums; education, training and instructional services in relation to manufacturing and production.

Cl.42;Evaluation of product design; development of consumer products; consumer product safety testing; research in the field of energy; testing, inspection and research services in the fields of pharmaceuticals, cosmetics and foodstuffs; design of buildings; real estate surveys; design of land surveys; clothing design; fashion design; fashion design consulting services; designing websites for advertising purposes; hosting multimedia entertainment content; beauty care research; cosmetics research; food inspection; development of IT security software; development of computer software for data processing; reconstruction of database systems for others; database development services; database design and development; rental of a database server to third parties; data encryption and decoding services; data encryption services; data migration services; development of data processing programs for others; writing of data processing programs; development of data processing programs; developing of driver and operating system software; development of computer software for big data processing; software as a service [SaaS]; platform as a service [PaaS]; software design and development; providing information relating to computer technology and programming via a website; rental of application software; creation of control programs for electric operation control and drive modules; computer technology development in the field of software for enterprise resource planning [ERP]; maintenance of software for enterprise resource planning [ERP]; development of software in the field of electronic components; design of software in the field of electronic components; design and development of electronic data security systems; electronic data storage; data conversion of electronic information; design and development of computer hardware for the manufacturing industry; design and development of computer hardware related to measuring machines and instruments; design and development of computer software related to measuring machines and instruments; design and development of computers and programs for computers; updating and maintenance of computer software; maintenance of computer game software;

computer system analysis; computer network configuration services; design of computer database; computer software design and updating; maintenance and upgrading of computer software; developing and updating computer software; maintenance and updating of computer software; rental and maintenance of computer software; services for maintenance of computer software; software design for others; rental of computer software and programs; design and development of computer software; installation and maintenance of computer software; installation, maintenance and repair of computer software; writing and updating computer software; computer software development; rental of computer software; computer software design; computer software consultancy; design of computer software; installation of computer software; updating of computer software; computer software research; maintenance of computer software; computer systems integration services; computer system design; computer system analysis; installation, maintenance and repair of software for computer systems; design of computer programming and software; rental of computer programming and computer program; analysis of computer programming and computer system; maintenance of computer programming and computer programs; computer programming; computer program updating services; installation of computer programs; creating of computer programs; development of computer programs; duplication of computer programs; leasing of computer programs; rental of computer hardware and software; cloud computing services.

Cl.4;Electrical energy; electrical energy from renewable sources; electrical energy from renewable sources, namely, solar power, wind power and geothermal power.

Cl.7;Electrolysis systems using renewable energy, namely, machines for generating gas by electrolysis for delivery of high temperature fluid and/or steam; solar, wind, and geothermal power distribution apparatus, namely, block type thermal power stations for power generation; wind, solar, and geothermal power supply units, namely, wind turbines, geothermal power generators, and heat exchangers being parts of machines.

Cl.9;Electric power generation, storage, and distribution apparatus, namely, electric power converters, electric power distribution machines; calcination systems using renewable energy, namely, electric control devices for heating and energy management; solar, wind, and geothermal power distribution apparatus, namely, thermal energy storage systems in the nature of heat batteries for energy storage; wind, solar, and thermal energy storage equipment, namely, thermal energy storage systems in the nature of heat batteries for temporary storage of energy; electric power supply units, namely, low-voltage power supplies; wind, solar, and geothermal power supply units, namely, solar panels for production of electricity, photovoltaic solar modules for production of electricity, solar cells, photovoltaic cells, photovoltaic modules; electric accumulators; electrical power monitoring apparatus and equipment, namely, temperature sensors, pressure sensors, fluid sensors, namely, flow control systems; downloadable computer maintenance software for collecting, analyzing and organizing data in the field of power generation, storage, and distribution; downloadable computer predictive maintenance software for collecting, analyzing and organizing data in the field of power generation, storage, and distribution; downloadable computer software for performing remote diagnostics related to management, distribution, conversion, storage, regulation, conduction of power, current and electricity in the field of power generation, storage, and distribution; downloadable computer software to monitor and control power generation, storage, and distribution machinery and equipment, namely energy and thermal energy storage plants for storing heat converted from electric; downloadable computer software for monitoring wind turbines, solar panels, solar modules, solar cells, photovoltaic cells, photovoltaic modules, geothermal power generators, and heat exchangers; photovoltaic installation apparatus, namely, solar modules for production of electricity; fuel cells.

Cl.11;Material activation systems comprised primarily of storage heaters for chemical processing using renewable energy to provide thermal treatment of chemical compounds.

Cl.36;Brokerage of carbon credits; energy brokerage services; brokerage of energy, namely, electricity; financial services, namely, funding carbon reduction and clean energy projects; broker-dealer financial services in the field of energy trading.

Cl.37;Installation, maintenance, repair and servicing of power generating apparatus and installations, namely, electrical power, wind power, and geothermal power generation stations for industrial applications; installation, maintenance, repair and servicing of apparatus and equipment for generating power via heat, steam and electricity to industrial applications; maintenance, servicing and repair of power generating apparatus and installations; maintenance, servicing and repair of power generating apparatus, storage tanks, and power distribution machinery and equipment; maintenance and repair of power generating apparatus and installations, namely, solar, wind, and geothermal power installations; construction of utility solar, wind, and geothermal-powered installations, namely, renewable energy power plants and geothermal energy based storage power plants for storing heat converted from electric energy; installation, maintenance, repair and servicing of large utility scale photovoltaic modules and energy storage installations, namely, energy and thermal energy storage plants for storing heat converted from electric energy in the nature of power generating apparatus and installations; maintenance, repair and servicing of commercial and industrial photovoltaic, wind, and geothermal-powered installations, namely, energy and thermal energy storage plants for storing heat converted from electric energy in the nature of power generating apparatus and installations.

Cl.39;Public utility services in the nature of supplying thermal energy storage and distribution of heat converted from electric energy; public utility services in the nature of physical storage and distribution of renewable energy for others; electricity distribution and transmission; geothermal distribution and transmission, distribution and transmission of electricity; distribution and transmission of geothermal energy; distribution and transmission of wind energy; distribution and transmission of solar energy; electricity storage from solar and renewable energy; utility services, namely, electricity power transmission and distribution; distribution, transmission, transportation and storage of geothermal power and renewable energy; physical storage of captured carbon dioxide (CO2) for others; storage of captured carbon dioxide for

others from industrial and commercial production sources for removing carbon dioxide from the air, emissions, and other substances.

Cl.40;Generation of power; generation of energy; generation of electricity; production of energy by steam turbine power plants; recycling; generation of power through operation of power generation equipment and facilities.

Cl.42;Industrial research services in the field of power generation, storage, and distribution; scientific research services in the field of power generation, storage, and distribution; computer-aided industrial design and engineering services for others in the field of power generation, storage, and distribution; computer-aided scientific and technological services, namely, scientific research, analysis, testing in the field of power generation, storage, and distribution; scientific and technological services, namely, technical analysis in the field of power generation, storage, and distribution; engineering services in the field of power generation, storage, and distribution; telecommunications engineering consultancy in the field of power generation, storage, and distribution; engineering services for the analysis of power generation, storage, and distribution machinery; inspection of power generation, storage, and distribution apparatus and machinery for quality control purposes; design and development of predictive maintenance computer software in the field of power generation, storage, and distribution; computer software consultancy services in the field of predictive maintenance for power generation, storage, and distribution; electric monitoring of machine conditions in the field of power generation, storage, and distribution using computers and sensors; remote monitoring services of power generating apparatus and installation condition in the field of power generation, storage, and distribution for quality control and forecast-based control purposes; research in the reduction of carbon emissions; providing scientific information, advice and consultancy relating to carbon offsetting; inspection of power generating apparatus and installations prior to repair and maintenance for quality control purposes; inspection of power generation, storage, and distribution machinery and equipment prior to repair and maintenance for quality control purposes.

Cl.9;Computer hardware; computer software; computer software platforms; integrated circuits; system on a chip (SoC); central processing units (CPU); microprocessors; microcontrollers; semiconductors; semiconductor chipsets; modems; circuit boards; circuit board assemblies; development boards, evaluation boards, and reference design kits for semiconductors, sensors, and software; software development kits (SDKs); computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms for internet of things (IoT) enabled devices; computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms for networking and mesh networking; computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms for controlling, implementing, and optimizing the communications link in networking, wireless, and computer communications; computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms for use in automotive, consumer, healthcare, immersive home, smart home, medical, aerospace, military, cellular, and mobile communications, networking, mesh networking, motor control, smart energy, and industrial applications; computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms using artificial intelligence for deploying and running machine learning models in telecommunications hardware, networking hardware, and networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; computer hardware, integrated circuits, chipsets, central processing units (CPUs), modems, recorded and downloadable computer software, and recorded and downloadable computer software platforms using artificial intelligence for controlling, operating, managing, tracking, and signal processing in telecommunications hardware, networking hardware, and networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; computer hardware, integrated circuits, semiconductor chipsets, central processing units (CPUs), and modems for use in datacenters; computer hardware, integrated circuits, semiconductor chipsets, central processing units (CPUs), and modems for optimizing server performance; computer hardware, integrated circuits, semiconductor chipsets, central processing units (CPUs), and modems for enabling and accelerating generative artificial intelligence (AI) inferencing and machine learning in cloud computing; computer hardware, integrated circuits, semiconductor chipsets, central processing units (CPUs), and modems for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; recorded and downloadable computer software platforms for optimizing server performance; recorded and downloadable optimization software for optimizing server performance; recorded and downloadable computer software for enabling and accelerating generative artificial intelligence (AI) inferencing and machine learning in cloud computing; recorded and downloadable computer software for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; recorded and downloadable computer software platforms for enabling and accelerating generative artificial intelligence (AI) inferencing and machine learning in cloud computing; recorded and downloadable computer software platforms for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; recorded and downloadable optimization software for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; recorded computer software and downloadable cloud-based software for asset location tracking, intelligent condition monitoring, and managing, operating, securing, and connecting, and deploying artificial intelligence (AI) processing capabilities in internet of things (IoT) devices and connected intelligent edge devices; application programming interface (API) software; global navigation satellite system (GNSS) transmitters and receivers; all of the foregoing for asset location tracking, intelligent condition monitoring, and managing, operating, securing, and connecting internet of things (IoT) devices and connected intelligent edge devices.

Cl.42;Software as a service (SAAS) services featuring software for networking and mesh networking; platform as a service (PAAS) services featuring computer software platforms for networking and mesh networking; providing temporary use of non-downloadable software for networking and mesh networking; software as a service (SAAS) services featuring software for managing network infrastructures; platform as a service (PAAS) services featuring computer software platforms for managing network infrastructures; providing temporary use of non-downloadable software for managing network infrastructures; software as a service (SAAS) services featuring software for controlling, implementing, and optimizing the communications link in networking, wireless, and computer communications; platform as a service (PAAS)

services featuring computer software platforms for controlling, implementing, and optimizing the communications link in networking, wireless, and computer communications; providing temporary use of non-downloadable software for controlling, implementing, and optimizing the communications link in networking, wireless, and computer communications; software as a service (SAAS) services featuring software for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; platform as a service (PAAS) services featuring computer software platforms for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; providing temporary use of non-downloadable software for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; software as a service (SAAS) services featuring software for use in automotive, consumer, healthcare, immersive home, smart home, medical, aerospace, military, cellular, and mobile communications, networking, mesh networking, motor control, smart energy, and industrial applications; platform as a service (PAAS) services featuring computer software platforms for use in automotive, consumer, healthcare, immersive home, smart home, medical, aerospace, military, cellular, and mobile communications, networking, mesh networking, motor control, smart energy, and industrial applications; providing temporary use of non-downloadable software for use in automotive, consumer, healthcare, immersive home, smart home, medical, aerospace, military, cellular, and mobile communications, networking, mesh networking, motor control, smart energy, and industrial applications; software as a service (SAAS) services featuring software for using artificial intelligence for deploying and running machine learning models in telecommunications hardware, networking hardware, networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; platform as a service (PAAS) services featuring computer software platforms for using artificial intelligence for deploying and running machine learning models in telecommunications hardware, networking hardware, networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; providing temporary use of non-downloadable software for using artificial intelligence for deploying and running machine learning models in telecommunications hardware, networking hardware, networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; software as a service (SAAS) services featuring software for using artificial intelligence for controlling, operating, managing, and signal processing in telecommunications hardware, networking hardware, networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; platform as a service (PAAS) services featuring computer software platforms for using artificial intelligence for controlling, operating, managing, and signal processing in telecommunications hardware, networking hardware, networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; providing temporary use of non-downloadable software for using artificial intelligence for controlling, operating, managing, and signal processing in telecommunications hardware, networking hardware, networking devices, networked devices, appliances, vehicles, industrial systems, utilities, internet of things (IoT) devices, and connected intelligent edge devices; software as a service (SAAS) services featuring software for optimizing server performance; platform as a service (PAAS) services featuring computer software platforms for optimizing server performance; providing temporary use of non-downloadable software for optimizing server performance; software as a service (SAAS) services featuring software for enabling and accelerating generative artificial intelligence (AI) inferencing and machine learning in cloud computing; platform as a service (PAAS) services featuring computer software platforms for enabling and accelerating generative artificial intelligence (AI) inferencing and machine learning in cloud computing; providing temporary use of non-downloadable software for enabling and accelerating generative artificial intelligence (AI) inferencing and machine learning in cloud computing; software as a service (SAAS) services featuring software for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; platform as a service (PAAS) services featuring computer software platforms for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; providing temporary use of non-downloadable software for optimizing performance of generative artificial intelligence (AI) inferencing and machine learning in cloud computing; software as a service (SAAS) services featuring software for asset location tracking, intelligent condition monitoring, and managing, operating, securing, connecting, and deploying artificial intelligence (AI) processing capabilities in internet of things (IoT) devices and connected intelligent edge devices; platform as a service (PAAS) services featuring computer software platforms for use in asset location tracking, intelligent condition monitoring, and managing, operating, securing, connecting, and deploying artificial intelligence (AI) processing capabilities in internet of things (IoT) devices and connected intelligent edge devices; providing temporary use of non-downloadable software for asset location tracking, intelligent condition monitoring, and managing, operating, securing, connecting, and deploying artificial intelligence (AI) processing capabilities in internet of things (IoT) devices and connected intelligent edge devices; providing temporary use of non-downloadable software for automating, configuring, managing, monitoring, and optimizing radio access networks (RAN), open radio access networks (OpenRAN), and virtualized radio access networks (vRAN); software as a service (SAAS) services featuring computer software for automating, configuring, managing, monitoring, and optimizing radio access networks (RAN), open radio access networks (OpenRAN), and virtualized radio access networks (vRAN); platform as a service (PAAS) services featuring computer software platforms for automating, configuring, managing, monitoring, and optimizing radio access networks (RAN), open radio access networks (OpenRAN), and virtualized radio access networks (vRAN).

Cl.7;Printing or bookbinding machines and apparatus; printing presses; industrial inkjet printing machines; inkjet printing machines; print heads for printing machines; bookbinding machines; printing rollers for machines; inking apparatus for printing machines; printing plates; paper feeders [printing]; printing cylinders; bookbinding apparatus and machines for industrial purposes; printing machines for use on sheet metal; 3D printers; packaging or wrapping machines and apparatus; wrapping machines; labellers [machines].

Cl.9;Photo-copying machines; photocopiers [photographic, electrostatic, thermic]; toner cartridges, unfilled; toner cartridges, unfilled, for printers and photocopiers; ink cartridges, unfilled; ink cartridges, unfilled, for printers and photocopiers; thermal print heads for thermal printers; print heads for inkjet printers; print heads for LED printers; print heads for computer printers; screens for photoengraving; digital copiers; electrostatic copying machines and their parts and fittings; electronic copying devices and their parts and fittings; facsimiles and their parts and fittings; telecommunication machines and apparatus; parts and accessories for telecommunication machines and apparatus; personal digital assistants; laser printers; inkjet printers; dye-sublimation printers; printers and their parts and fittings; scanners [data processing equipment] and their parts and fittings; electronic multifunctional copying devices incorporating copying, facsimile, scanning and printing functions; plotters; photoconductive drums for electrostatic copying machines; photoconductive drums for computer printers; photoconductive drums for facsimile machines; photoconductive drums for multifunctional electrostatic copying machines with printing, facsimile, copying and scanning functions; light-emitting diodes [LED]; laser diodes; lasers, not for medical purposes; organic light-emitting diodes [OLED]; semiconductor elements; computer software for document management, creation, and document and image processing; computer software for scanning images and documents; computer software for document creation and workflow management; computer software for centralized management of systems and equipment used in the printing process; computer programs for data processing; computer programs and software for image processing; computer software for operating computer print servers; computer software for diagnostics and troubleshooting; computer software for digital print application development; application software; computer programs; electronic publications; computers and their peripherals; computer software platforms, recorded or downloadable; optical character readers; data processing

apparatus; data processing apparatus for collecting document data and image data; data processing apparatus for processing document data or image data, and their parts; computer software, recorded; computer software, downloadable; computer software applications, downloadable; computer programs, recorded; downloadable computer programs; network servers for cloud computing; cloud computing software; downloadable computer software for processing, analyzing and archiving document data; recorded computer software for processing, analyzing and archiving document data; computer software for data management; computer software for database management; computer software for converting document images into electronic formats; computer software for analyzing images using artificial intelligence, recorded or downloadable; computer software for three-dimensional medical image analysis, recorded or downloadable; computer software for medical image analysis, recorded or downloadable; computer software for surgical assistance, recorded or downloadable; computer software for three-dimensional medical image analysis using artificial intelligence, recorded or downloadable; computer software for use in development of artificial intelligence, recorded or downloadable; computer software for project management; downloadable computer software with artificial intelligence capabilities; computer software platforms for developing artificial intelligence; computer software platforms for project management; computer software platforms with artificial intelligence capabilities; computer software for use with CT scanners and medical image diagnostic apparatus; computer software for use in assisting medical image diagnosis and analysis; computer software for use in medical examination and medical imaging diagnosis; computer software for medical imaging analysis with report generation, management, and retrieval functions; computer programs for collecting, evaluating, storing and transmitting medical images, and for medical administration; computer programs featuring artificial intelligence capabilities; computer software for use in medical examination and medical imaging diagnosis powered by artificial intelligence, recorded or downloadable; computer programs for use in medical examination and medical imaging diagnosis using artificial intelligence, recorded or downloadable; photographic machines and apparatus; cinematographic machines and apparatus; optical machines and apparatus.

Cl.42;Consultancy relating to design and development of computers and computer software for printing; consultancy in the field of computer programming for data processing and communication systems; design and development of electronic data security systems; rental of computers; providing computer programs on data networks; computer software design, computer programming, or maintenance of computer software; testing or research on machines, apparatus and instruments; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; digitization of documents [scanning]; cloud computing services; computer technology consultancy; information technology [IT] consultancy; consultancy and information services relating to information technology architecture and infrastructure; technological advice relating to computers, automobiles and industrial machines; rental of scanners [data processing equipment]; off-site data backup; monitoring of computer systems to detect breakdowns; monitoring of computer system operation by remote access; computer system design; maintenance of software for computer systems; updating of computer software; duplication of computer programs; data encryption services; conversion of data or documents from physical to electronic media; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer programs for word processing to prevent unauthorized access by others; software as a service [SaaS]; hosting computer sites [web sites]; provision of online non-downloadable computer software; platform as a service [PaaS]; server hosting services; providing online non-downloadable computer software for use in collection, analysis and storage of electronic data; technological information services relating to results of collection, analysis and electronic storage of technical data in electronic form; providing online non-downloadable computer software for use in collection, analysis and electronic storage of data logs; technological information services relating to results of collection, analysis and electronic storage of data logs; providing online non-downloadable computer software for collection, analysis or electronic storage of big data; technological information services relating to results of collection, analysis and electronic storage of big data; providing online non-downloadable computer software for technical and scientific analysis of data using artificial intelligence [AI]; providing online non-downloadable computer software for analyzing corporate data and creating reports; providing online non-downloadable computer software for word processing; providing online non-downloadable computer software for centrally managing systems and equipment used in the printing process; design, development, maintenance, updating and rental of computer software for word processing; information services in the field of design of computer equipment for word processing; installation, design and maintenance of computer programs for document management; computer programming services for electronic data security; consultancy services relating to information technology [IT] services related to information processing using computers; information technology [IT] services, namely computer programming related to information processing using computers; computerized conversion of electronic data; medical data analysis services for scientific research, medical research, and consultancy relating thereto; electronic storage of electronic data using computers; electronic storage of audio, data and images; scientific research for medical purposes and provision of information related thereto; medical research or scientific testing related to medical imaging; design and development of computer hardware and computer software for medical imaging; cloud computing featuring software for storing, analyzing, and sharing 3D medical images in the field of medical diagnostics; cloud computing featuring software for storing, analyzing, and sharing information in the field of medical diagnostics; provision of online non-downloadable computer software for medical image analysis; design, creation, or maintenance of online non-downloadable computer programs for medical image analysis; provision of online non-downloadable computer programs for medical image analysis; providing online non-downloadable computer programs for information processing using artificial intelligence; research and development related to medical images and medical imaging devices; analysis of performance and usage methods conducted by engineers for the optimal utilization of medical imaging device; testing, inspection, or research concerning medical machinery and equipment, as well as the provision of information and advice related thereto; design and development of software for medical image analysis and processing using artificial intelligence; scientific research and analysis in the field of medical imaging using artificial intelligence; provision of computer programs for medical tests and medical image diagnostics using artificial intelligence; rental of word processors.

IR DIVISION

Cl.9; **Computer application software for mobile phones and tablet computers for automated and customized financial management, namely, customized management of non-investment personal financial accounts, daily monitoring of transactions and account balances, and spending reporting; downloadable computer software for automated and customized financial management, namely, customized management of non-investment personal financial accounts, daily monitoring of transactions and account balances, and spending reporting; downloadable software; downloadable software for use as an application programming interface (API); software development tools; application programming interface (API) for use in building software applications; downloadable software for use in the field of blockchain; downloadable software for use in the field of decentralized web software protocols; downloadable software for blockchain-based platforms for developing, building, operating, and hosting distributed software applications, protocols, and decentralized applications (dApps); downloadable software for encrypting and enabling secure transmission of digital information over the internet; downloadable software for the management of cryptographic security of electronic transmissions across computer networks; downloadable software for creating and management of smart contracts; downloadable software for creating and managing transactions on blockchains; downloadable software for recording, processing, storing, analyzing, and managing data and information; downloadable software for designing, testing, deploying, and managing blockchain systems; downloadable distributed ledger software for distributed applications, the foregoing for data transmission, processing, and management; downloadable computer software development tools; distributed ledger platform software, namely, downloadable computer software for recording, verifying, monitoring, executing, and tracking electronic transactions using distributed ledger technology (DLT); downloadable software for managing, storing, creating, analyzing, accepting, buying, selling, accessing, transmitting, trading, auctioning, viewing, transferring, transacting, exchanging, validating, and verifying cryptocurrency, digital currency, virtual currency, crypto collectibles, digital collectibles, digital art, utility tokens, crypto tokens, digital and blockchain assets, digitized assets, and other application tokens; downloadable software for use as a digital wallet and cryptocurrency wallet; downloadable software for enabling, managing, recording, and verifying financial transactions in an electronic financial platform; downloadable computer software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currency, and managing digital currency payment and exchange transactions; downloadable computer software for processing electronic payments and for transferring funds to and from others; downloadable authentication software for controlling access to and communications with computers and computer networks; downloadable mobile application software for facilitating financial transactions; downloadable mobile application software for use in business and trade information management; downloadable software for enabling investors to stake their digital assets eligible for returns in a proof of stake network, and execute trades of digital assets; cryptocurrency hardware wallet; downloadable software and hardware for use as a digital currency wallet, cryptocurrency wallet, stablecoin wallet, virtual currency wallet, and digital asset wallet; downloadable computer software and mobile applications for use as electronic wallets, including digital currency, virtual currency, stablecoin, and cryptocurrency wallets; downloadable software for use as electronic wallets used for blockchain applications; downloadable software for use in payments, purchases, and investments using digital currency, virtual currency, stablecoin, cryptocurrency, and digital and blockchain assets; downloadable software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, stablecoin, and digital and blockchain assets into hard currency; magnetically encoded credit cards and magnetic ID cards for use in connection with payment for services.**

Cl.35; **Provision of an online marketplace for buyers and sellers of goods and services; provision of an online marketplace for buyers and sellers of blockchain-based digital assets and crypto collectibles; operating an online marketplace for the exchange and sale of products and services between buyers and sellers via computer and communication networks; operating an online marketplace for the exchange and sale of services and products of third parties via computer and communication networks; online auction services featuring blockchain-based digital assets and crypto collectibles; auction services; providing online marketplaces for buyers and sellers of goods and/or services; providing online facilities in the nature of an online marketplace for connecting buyers with sellers of goods and services; retail store services featuring a wide variety of consumer goods of others; retail store services featuring downloadable open-source software for building applications on the blockchain; advertising services; marketing services; publicity and sales promotion services; business consulting services; reconciling financial transactions via internet and electronic communications networks.**

Cl.36; **Automated and customized financial report services relating to account balances and spendings; financial services; financial consultation in the fields of cryptocurrencies, digital currencies, token mechanics, virtual currencies, digital assets, blockchains, and smart contracts; digital currency payment processing services; cryptocurrency payment processing; processing of electronic wallet payments; blockchain-based payment verification services; cryptocurrency, digital currency, and virtual currency trading and exchange services; currency exchange services; on-line real-time currency trading; financial services, namely, cryptocurrency portfolio management services and stablecoin portfolio management services; stablecoin payment processing services; stablecoin issuance, trading, and exchange services; electronic credit and debit transaction processing, namely, providing electronic processing of cryptocurrency and stablecoin transactions; financial exchange of crypto assets, digital currency, virtual currency, and blockchain assets; financial services, namely, electronic transfer of crypto assets; financial services, namely, providing electronic transfer of**

digital, virtual, and cryptocurrency for use by members of an online community via a global computer network; cryptocurrency exchange services, namely, issuance and redemption of digital currency, virtual currency, stablecoin, cryptocurrency, and digital and blockchain assets; electronic transfer of cryptocurrencies, digital currencies, virtual currencies, and crypto assets; money exchange services; money transfer services; financial services, namely, electronic financial trading services, and clearing financial transactions via internet and electronic communications networks; financial information services and financial consultation in the field of cryptocurrency; financial exchange services, namely, providing a financial exchange for trading digital, virtual, and fiat currency; providing financial information in the fields of cryptocurrency, digital currency, virtual currency, digital tokens, crypto-tokens, utility tokens, and digital collectibles; providing information in the field of digital currency, virtual currency, and currency exchange services via an internet website; financial services, namely, stock brokerage, investment brokerage, mutual fund dealer services, financial investment and financial management services, and providing information in the fields of finance over computer networks; financial affairs, namely, financial management, financial planning, financial forecasting, financial portfolio management, and financial analysis and consultation; financial custody services, namely, maintaining possession of financial assets for others, including institutional funds and digital asset investment vehicles; investment management and financial risk management services, including digital asset hedge funds, index funds, and exchange-traded funds; merchant services, namely, payment processing services featuring virtual currency; credit card and debit card transaction processing services; bill payment services, including those provided via mobile applications; credit card payment processing services and authorization services; issuance of credit services featuring revolving credit accounts; financial management of reimbursement payments for others featuring funds for disputed items in the field of electronic payment purchases; electronic foreign exchange payment processing; electronic commerce payment services, namely, electronic fund transfer and virtual currency payment processing, including establishing funded accounts; insurance services, namely, underwriting property and casualty insurance for goods and services purchased via a global computer or wireless network; electronic banking services via a global computer network; currency trading and transfer services; currency exchange and advice.

Cl.42;Providing temporary use of online non-downloadable software for automated and customized financial management, namely, customized management of non-investment personal financial accounts and daily monitoring of transactions and account balances; providing non-downloadable software for use in the field of blockchain for data transmission, processing, and management and for developing, building, operating, and hosting distributed software applications, protocols, and decentralized applications (dApps); providing non-downloadable software for use in the field of decentralized web software protocols; providing non-downloadable distributed ledger platform software for distributed applications, the foregoing for data transmission, processing, and management; providing non-downloadable software for encrypting and enabling secure transmission of digital information over the internet; providing non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing non-downloadable software for creating and management of smart contracts; providing non-downloadable software for creating and managing transactions on blockchains; providing non-downloadable software for use with blockchain-based technology for data transmission, processing, and management and developing, building, and hosting distributed applications; providing temporary use of non-downloadable software as an application programming interface (API) for development, testing, and integration of blockchain applications; providing non-downloadable software for managing, storing, creating, analyzing, accepting, buying, selling, accessing, transmitting, trading, auctioning, viewing, transferring, transacting, exchanging, validating, and verifying cryptocurrency, digital currency, virtual currency, crypto collectibles, digital collectibles, digital art, utility tokens, crypto tokens, and blockchain assets; providing non-downloadable layer 1 blockchain software and software for processing and executing transactions on layer-1 blockchains; providing temporary use of online non-downloadable software for enabling investors to stake their digital assets eligible for returns in a proof of stake network, vote to support network governance events, create digital assets, and execute trades; providing non-downloadable software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; providing temporary use of online non-downloadable software for use as a cryptocurrency wallet, electronic wallet, and digital currency wallet; software as a service (SAAS) featuring software for creating and managing blockchain transactions; software as a service (SAAS) featuring software for smart contract management; software as a service (SAAS) featuring software for management of cryptographic security of electronic transmissions; software as a service (SAAS) featuring software for developing, testing, hosting, and operating dApps and distributed systems; software as a service (SAAS) featuring software for managing, storing, and transacting in digital assets including crypto collectibles and tokenized assets; providing online non-downloadable software enabling users to create, exchange, sell, purchase, and transmit blockchain-based digital assets and crypto collectibles via a website; technology custody services in the nature of electronic storage of cryptocurrency and digital assets for institutional investors; technological consulting in the field of digital assets, cryptocurrency, virtual currency, digital tokens, and blockchain-based assets; automated and customized daily monitoring of transactions.
