Cl.7;Mechanical control apparatus and installations with monitoring function for environment treatment machines in aquaculture ponds, pens and cages for fish, shellfish and organisms living in the water, including mechanical control installations for aeration; dispensing machines; machines, mechanical control apparatus and installations with monitoring and reporting function for aquaculture machines used in ponds, pens and cages and for the welfare of fish and shellfish; machines, mechanical apparatus and installations for feeding of fish, shellfish and organisms who live in the water, including feeding control apparatus and automatic feeding apparatus for fish, shellfish and organisms who live in the water and machines for sucking in and blowing out feed for use in the aquaculture industry; animal feed hoppers [machines]; washing machines and high-pressure washers for cleaning fish and shellfish cages and pens; mechanical treatment apparatus and installations with biomass estimation function in aquaculture; machines, mechanical apparatus and installations to be used as feeders for animals, fish, shellfish or organisms who live in the water; particle filters as parts of machines; water pumps; net washers; compressors [machines], including air compressors; filters (parts of machines or engines); parts and accessories for the aforementioned goods.

Cl.9;Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments; software, including software applications, for monitoring, analyzing and controlling performance of aquaculture ponds, pens and cages and the welfare of fish and shellfish in aquaculture; software for monitoring, analyzing, controlling and optimizing the environment in aquaculture ponds, pens and cages for fish, shellfish and organisms who live in the water, including software for the investigation of nutrition, feeding regimes, feeding behaviour, palatability, feed size and hardness, environmental impact and health in relation to fish and organisms who live in the water; software for feeding control, intelligent feed distribution and feeder refilling systems, including behavioral based control and feeding detection technology; software for biomass estimation in aquaculture, including software for sizing and counting of fish, shellfish and organisms who live in the water; management software for farms in aquaculture, including shrimp farms and fish farms; software for sonic control; software for wireless aeration control; software for scientific research and laboratory apparatus and for scientific research in laboratories; devices used for monitoring, analyzing and controlling the environment in aquaculture ponds, pens and cages for fish, shellfish and organisms who live in the water; dashboard software; sensory software; sensors, detectors and monitoring instruments, including infrared sensors, motion sensors, ultrasonic sensors, acoustic sensors, optical sensors, motion recognizing sensors and oscillation sensor devices; sensors for the monitor and control oxygenation, water temperature and salinity; underwater cameras; underwater stereo camera systems; analytical and measuring devices, including instruments for analyzing and measuring chemical elements and other parameters in water; remote and portable electronic devices, namely probes, monitors, controls and diffusers for monitoring and controlling the environment of streams, ponds, aquariums, fish and shellfish hatcheries and aquaculture ponds, pens and cages, whether natural or man-made; test and measurement instrumentation, including devices and instruments for measuring biomass; alarms; remote control apparatus; sound and light meters; solar panels; radios; GPS transmitters; temperature indicators; water level indicators; intercommunication apparatus; computer hardware, computer software and digital recorders for monitoring and reporting performance of aquaculture pens and cages and the welfare of fish in aquaculture; parts and accessories for the aforementioned goods.

Cl.42;Study and research related to aquaculture and cultivation of beings or organisms that have their survival in water; scientific and technological services and research related to general

biology, underwater biology, chemistry, bacteriology and nutrition of fish, shellfish or other aquatic things, including in relation to automatic fish and shellfish feeders, fish and shellfish feeding control, fish and shellfish biomass estimation, fish and shellfish production and aquaculture farm management; research, study and technological advice of all types of activities related to aquaculture farm management, general biology, underwater biology, chemistry, bacteriology and nutrition and feeding of fish, shellfish, or other aquatic things; underwater exploration; quality control services and monitoring of living and dead organisms; quality control and technological analyses, including eco-efficiency analysis, life cycle analysis and environmental impact assessments; technological advice and consulting relating to recirculation systems in relation to underwater biology, water quality, energy efficiency and sustainability; software development, including development of application software for aquacultural feeding assistance, process control, production control and planning and for optimizing the sustainability of fish and shrimp farms; software as a service, including for monitoring, analyzing and controlling performance of aquaculture pens and cages and the welfare of fish and shellfish in aquaculture and for feeding control, intelligent feed distribution and feeder refilling systems; platform as a service [PaaS]; cloud computing services; cloud storage services for electronic files; providing virtual computer systems through cloud computing; providing online non-downloadable cloud based computer software for aquaculture pond management; technological services in the field of breeding of aquaculture species; software development, programming and implementation of software for fish farm management, including software for the optimization of feeding systems, control of aerators, feed control systems, optimization of shrimp and fish growth and biomass estimation in aquaculture; design and development of computers and computer peripherals, digital measuring apparatus and instruments, analytical apparatus [except for medical use], photographic apparatus and digital cameras; design, development, installation and maintenance of computer programs, artificial intelligence software for measurement, analysis and monitoring in relation to aquaculture, including for fish and shrimp feeders and biomass estimation; hosting services and software as a service and rental of software; engineering services in relation to aquaculture technology, including testing, authentication and quality control to ensure optimal performance of fish and shrimp farms; technical consultancy relating to research services in the field of amino acids, peptides and proteins and mixtures thereof for fish and shrimp fodder and food for aquaculture as well as their medical and veterinary applications; bacteriological or chemical laboratory services; platform as a service [PaaS] consisting of a software platform for marine and terrestrial aquaculture farm management, including for feeding control and biomass estimation; scientific and technological services, i.e. research and design in the field of aquaculture practices and fish and shrimp production and distribution; scientific studies and research in the field of aquaculture practices; consulting services relating to design, planning and conducting of technical projects for management of aquaculture practices and fish and shrimp production; design and development of software and hardware for aquaculture practices and production systems for fish and shrimp production, including feeding systems and biomass estimators; providing of scientific information in the fields of aquaculture practices and fish production; research and technical studies relating to nutrition of fish or other aquatic animals; consultancy in relation to all the aforementioned.

CI.44;Agriculture, aquaculture and veterinary services; consultancy and advisory services in the aquaculture field; technical consultancies in the fields of feeding and breeding of fish, shrimp and other forms of marine life in captivity; consulting services in the field of aquaculture provided through the Internet; breeding of animals, including fish and shrimp; advice and consulting relating to nutrition and feeding strategies in relation to animals, including fish, shellfish and organisms who live in the water and farming; pisciculture and cultivation services of things and organisms who live in the water; advice related to nutrition of fish or other aquatic things; services for the care of animals and fishes; consultancy in relation to all the aforementioned.
