## FLORAL FRAGRANCE/ SMELL REMINISCENT OF ROSES AS APPLIED TO TYRES

### Graphical Representation of Rose-like Smell

**Description:** A complex mixture of volatile organic compounds released by the petals interact with our olfactory receptors, creating a rose-like smell. Using the technology developed at IIIT Allahabad, this rose-like smell is graphically presented above as a vector in the 7-dimensional space wherein each dimension is defined as one of the 7 fundamental smells, namely floral, fruity, woody, nutty, pungent, sweet, and minty.

**Cl.9;**Process computers and computer programs and software therefor recorded on data media, all the aforesaid in particular for diesel engines, turbomachines; computer programs and computer programs stored on data carriers in the field of engineering, in particular for the construction, production planning and manufacture of mechanical engineering products; electrical monitoring apparatus and instruments and monitoring equipment composed thereof for compressors, turbines, turbo machines, turbo generator installations and generators and for installations for generating energy; apparatus for regulating, safeguarding and monitoring machinery; material testing instruments and machines for drive technology for vehicles, air travel and railway engineering; electronic control systems; artificial intelligence and machine learning software; emergency power supply apparatus; electrotechnical, electronic and ceramic [condensers, fuses and resonators] components and assemblies consisting thereof, batteries, electric; fuel cells; accumulators, electric; solar cells and solar installations formed therefrom, for use in the following fields: production of electricity; sensors; apparatus and instruments for the storage, distribution and transmission of energy; stacks, for use in relation to the following goods: fuel cells; installations of infrastructure for use in the following fields: automation, energy production and distribution, all for process, goods and service optimisation, namely charging stations, supercapacitors for energy storage; research apparatus and instruments; apparatus and instruments for research purposes in the following fields: catalytic gas phase reactions, acid production and acceleration of nuclear particles; stacks, for use in relation to the following goods: electrolyzers; electrolyzers.

**Cl.11;**Pipe reactors for catalytic gas-phase reactions (steam generating installations); fusion reactors; heat pumps.

**Cl.16;**Printed matter, included in this class, in particular manuals (handbooks), program manuals (handbooks) and pamphlets; stationery; instructional and teaching material (except apparatus); plastic materials for packaging, included in this class.

**Cl.35;**Advertising; promotion services; business management; business administration; arranging of commercial and business contacts; sponsorship of cultural, social, scientific or sporting events [advertising through sponsorship].

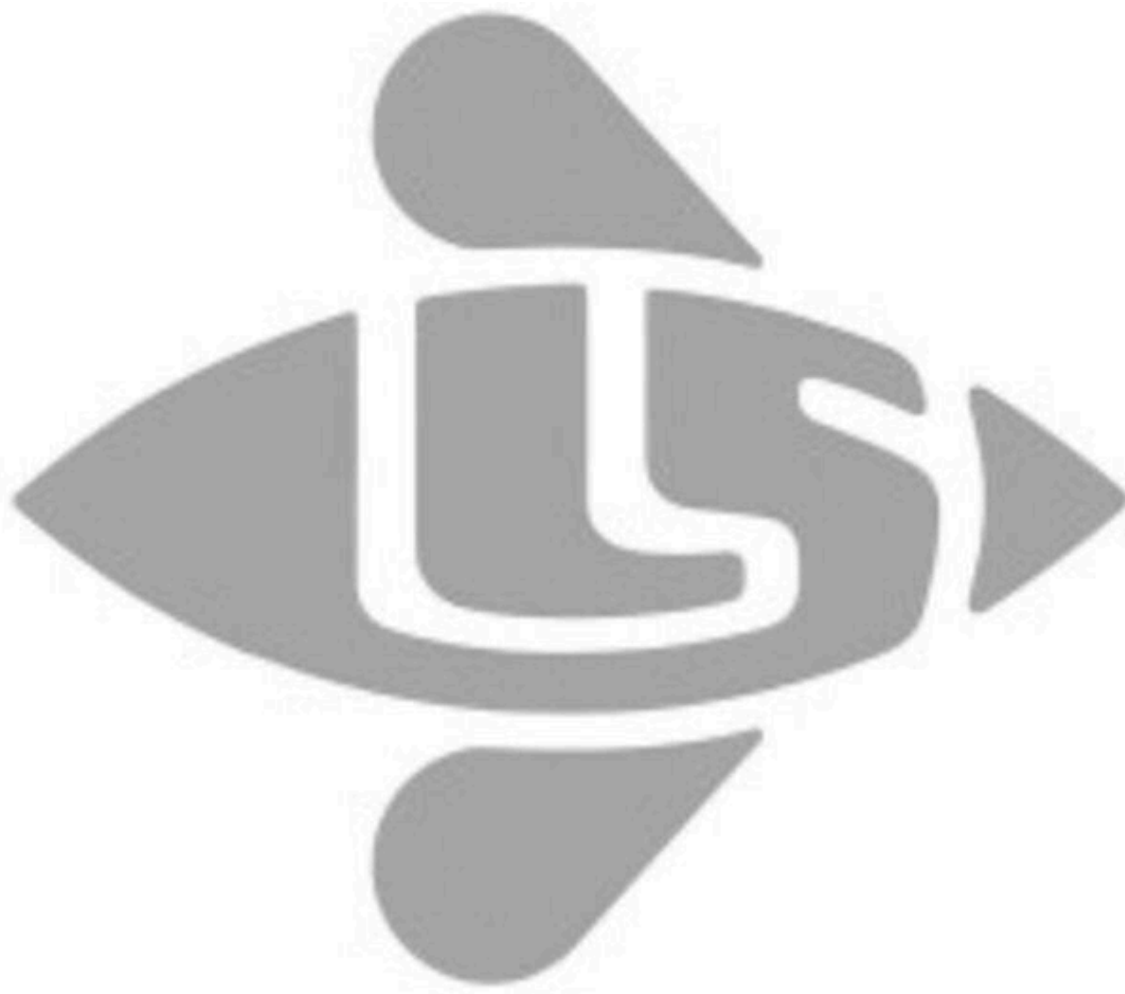

**CI.36;**Finance services; financial services relating to industrial installations, infrastructure projects, machines, equipment, steel products and non-ferrous metals; financial services, specifically related to leasing, sales financing, and investment funding; insurance underwriting; brokerage, rental and leasing of real estate; financing of real estate development projects; rental (real estate) of industrial installations; financial services in the field of holdings in companies; sponsorship of cultural, social, scientific or sporting events (financial sponsorship); other than services relating to the providing of alternative investment products and solutions, including the following services: brokerage and financial management.

**CI.37;**Repair, maintenance, servicing, rebuilding of vehicles and parts therefor; installation, maintenance and repair of machines, diesel engines, turbomachines; repair, maintenance, building construction for the modernisation and maintenance of motors and engines and turbochargers and motor and engine and machine parts, included in this class; rental of turbomachines in the form of drives for construction machines and for installations for the construction of installations for processing gaseous and liquid media; building of factories and industrial plant construction; shipbuilding; conducting building projects; construction of exhibition stands and shops, including installation, repair and maintenance thereof; construction, assembly, technical conversion for performance enhancement, functional expansion, alternative operating methods for machines, installations and components, in particular for the chemical industry, the refinery sector, physical installation construction and nuclear technology; remote maintenance of gas and diesel engines, power plant installations and turbomachines; construction of installations for power-to-x technology, in particular power-to-ammonia technology, power-to-chemicals technology, power-to-fuel technology, power-to-gas technology, power-to-heat technology, power-to-hydrogen technology, power-to-liquid technology, power-to-methane technology, power-to-mobility technology, power-to-power technology and power-to-syngas technology; building and construction of facilities, for use in the following fields: CO2 capture, CO2 storage.

**CI.40;**Rental of diesel engines for generating electricity.

**CI.41;**Educational instruction; training; entertainment services; arranging and conducting of seminars; organisation and conducting of training workshops; arranging and presenting of live performances; arranging and conducting of cultural and/or sports events; provision of instruction and training for consultants for the construction and operation of industrial installations.

**CI.42;**Engineering services for the preparation of operating manuals for the use of edp programs, including in electronic form, in the field of engineering, namely for the construction, work preparation and manufacture of mechanical engineering goods; technical consultancy, in particular relating to the use of data processing installations, equipment and programs in the field of engineering; material testing; computer programming; services of physicists; engineering services; conducting technical tests and checks, technical measurements and scientific investigations; research and development in the field of technology and mechanical engineering; physics research, in particular in the field of nuclear fusion, nuclear particle acceleration and nuclear technology; installation of computer software; configuring computer networks by means of software; material testing and quality control; engineering, in particular technical project planning of industrial installations for steel, metal and aluminium manufacturing and processing, for refineries and for petrochemistry; technical data analysis of gas and diesel engines, power plant installations and turbomachines for the remote maintenance of gas and diesel engines, power plant installations and turbomachines; research and development services; software as a service [saas]; platform as a service [paas]; engineering services, especially technical design of industrial installations, for use in the following fields: production of energy, storage of energy; technical data analysis of power plant installations for the remote maintenance of power plant installations; technical consultancy, relating to the following sectors: CO2 capture, CO2 storage, use of CO2.

**CI.11;**Apparatus for the purification of gas; cooling installations for gas; gas burners for industrial purposes; gas recovery apparatus; gas generation plants for industrial purposes; regulating apparatus for gas pipe installations; solar energy collectors for heating; solar-powered lamps; solar-powered steam generators; solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of lighting, namely computer controlled lighting apparatus, reflectors for light control, louvres for light control, screens for controlling light, shades for light sources, filters for lighting apparatus, electric discharge tubes for lighting, luminous cables for lighting purposes, solar powered lamps; environmental control apparatus and installations for the purposes of cooling, namely electrically-operated devices used in cooling, electrically powered fans for ventilation purposes, electrically powered air blowers for air-conditioning purposes, solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of sanitizing, namely ozonizers for sanitizing purposes, air cleaning filters [parts of air cleaning machines or installations], electric air purifiers, electric water purifiers for household purposes, water purifiers for industrial use, electric humidifiers, portable decontamination apparatus, wastewater purification units, water conditioning units; desalination installations; steam heating apparatus for industrial purposes; heating installations for industrial purposes.

**CI.35;**Business project management services for construction projects; commercial intermediation services; retail services for construction equipment; wholesale services for construction equipment; energy price comparison services; preparation of energy consumption statements; billing services in the field of energy; import-export agencies in the field of energy; procurement of contracts concerning energy supply; procurement services in the nature of purchasing energy supply for others; tracking and monitoring energy consumption for others for account auditing purposes; retail services for metal hardware; wholesale services for metal hardware; retail and wholesale services for non-metallic building materials; retail and wholesale services in relation to aluminium; retail and wholesale services in relation to common metals, unwrought or semi-wrought; retail and wholesale services in relation to alloys of common metal; distributorship services in the field of aluminium; retail and wholesale services in relation to electricity generators; Negotiation and conclusion of commercial transactions for procurement of electricity for third parties; retail services relating to electric charging infrastructures for electric vehicles; business management of infrastructures for electric vehicles; subscription services to electric vehicle charging services; electricity meter reading for billing purposes; arranging subscriptions to electric vehicle charging services; retail and wholesale services for electricity measuring instruments; business management supervision in the field of electric mobility; business project management services in the field of electric mobility; price comparison services relating to gas, electricity and water utilities; auditing utility rates for others; utility meter reading for billing purposes; retail services relating to electric charging infrastructures for hybrid vehicles; sales promotion and publicity relating to electric vehicle charging services; providing advice in the field of business efficiency; wholesale services for lighting.

**CI.36;**Energy brokerage services; brokerage of renewable energy credits; brokerage of financial investments in energy companies; brokerage of solar renewable energy credits; consultancy concerning financing of energy projects; agencies for collecting gas or electric power utility payments; arranging finance for construction projects; lease-purchase financing of mobile and modular constructions; real estate affairs relating to industrial premises; real estate management services relating to industrial premises; investment trust services; services of brokers dealing in shares and property.

**CI.37;**Building and construction services; construction engineering services [construction consultancy]; construction engineering services [construction supervision]; construction project management [construction supervision]; commercial property construction; communications infrastructure construction; construction equipment rental; construction of commercial buildings; construction of industrial plants; construction, repair and maintenance of power plants; construction of energy and power generating installations being structures; construction of solar power plants; construction of wind power plants; construction, maintenance and renovation of public works; power infrastructure construction; provision of construction advice; construction of structures for the production of natural gas; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; real estate development [building and construction services]; construction of roads, sewers and water supply systems; construction, repair and maintenance of heat insulation systems; extraction of natural gas; installation of gas pipelines; gas supply system repair services; installation of gas detection systems; mining extraction, oil and gas drilling; compressed natural gas [CNG] fueling equipment installation, maintenance and repair; installation, maintenance and repair of gas and electricity systems; installation of apparatus for supply and distribution of gas; installation, maintenance and repair of gas, electricity and water supply apparatus; mining of metals; mining of metal ores; mining extraction services; installation, maintenance and repair of apparatus for processing metals; earthworks [excavation] in the field of the mining industry; mining extraction of minerals; construction of residential buildings; servicing and repair of lifting apparatus; construction work relating to the installation and maintenance of electrical systems.

**CI.39;**Distribution of energy; storage of energy and fuels; information and advisory services in relation to the distribution of energy; providing information on chemical storage of energy via a website; storage, distribution and supply of energy and fuel; supply of electrical energy, gas, water and district heating; leasing the use of power lines to third parties for the transmission of electricity; public utility services in the nature of electricity distribution.

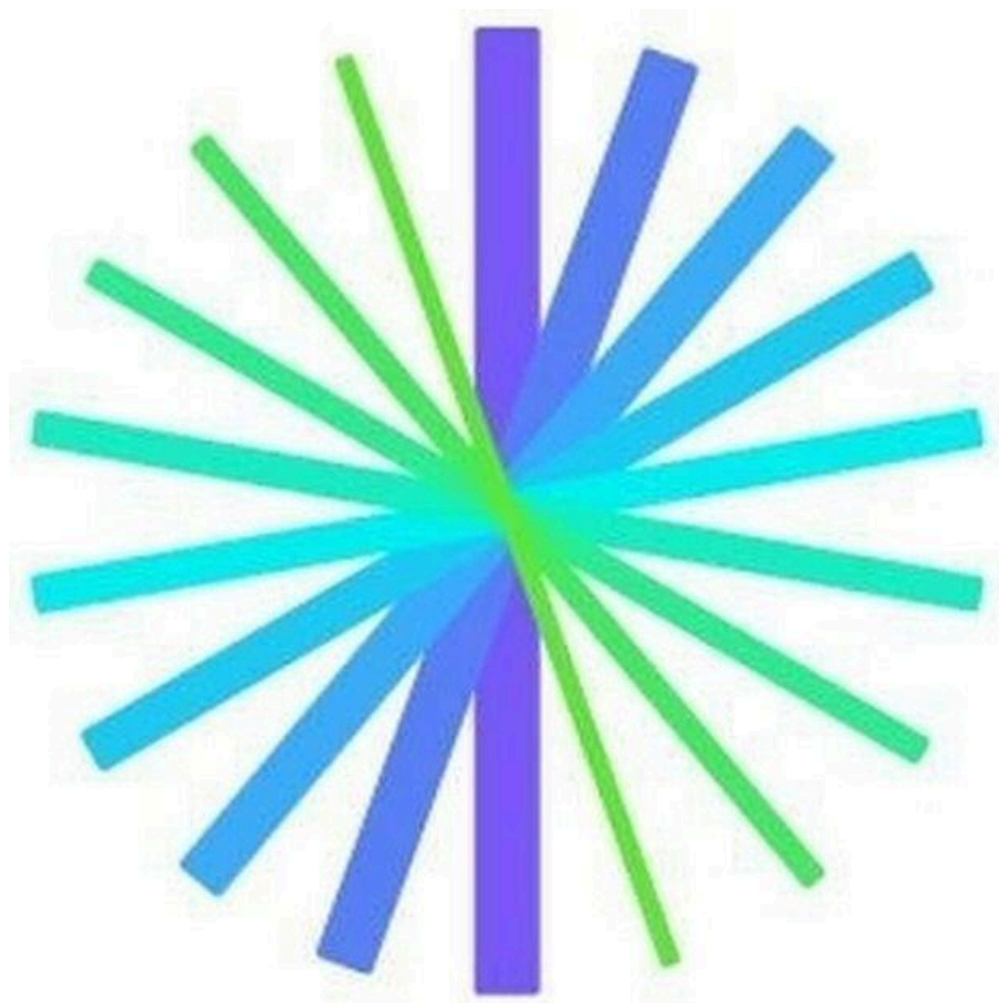

**CI.40;**Energy generation services; conversion of waste energy into electricity [energy recycling services]; conversion of waste energy into steam [energy recycling services]; leasing of energy generating equipment; processing and

transforming of wind energy into electricity; processing and transforming of wave energy into electricity; processing and transforming of geothermal energy into electricity; processing and transforming of solar energy into electricity; processing and transforming of stored wind energy, stored wave energy, stored geothermal energy, stored solar energy into electricity; production of energy by power plants; production of renewable green energy; consultancy in the field of energy generation; production of electrical energy from renewable sources; production and processing of fuels, of energy from renewable sources and of energy from conventional sources, namely oil, natural gas, coal, nuclear energy; processing of natural gas; gas production services; natural gas liquefaction services; advisory services relating to production of electricity from liquefied natural gas; processing and transforming of mineral resources and of other raw materials, namely caustic soda, calcined coke, bauxite residues, foundry alloys, various metal, and mineral residues; treatment of metals; extrusion of metal alloys; recycling of metals; metal fabrication and finishing services; treatment of common metal materials; processing of earth materials to obtain metals [material processing]; drilling of metals; electro and metal coating, metal treating and casting, hardening of metal and metal products; provision of information in the field of mineral processing; recycling of minerals; sorting of waste and recyclable materials [transformation]; recycling of mineral waste; soil, waste or water treatment services [environmental remediation services]; treatment of waste materials in the field of environmental pollution control; sewage treatment services; water recycling and desalination services.

**CI.41;**Provision of educational and training services in relation to metals, energy production, minerals, and fuels; arranging and conducting of conferences, seminars, exhibitions and symposiums in relation to metals, energy production, minerals, and fuels; training in the use of construction machinery.

**CI.42;**Engineering and technological consultancy for metal processing systems; engineering and technical support services for the design and configuration of hardware and software systems for use in metal finishing operations; computer programming for the energy industry; design and development of software for control, regulation and monitoring of solar energy systems; energy auditing services; energy consultancy in the field of increase savings by improving energy efficiency; design and development of energy distribution networks; development of energy and power management systems; engineering services in the field of energy technology; engineering services relating to energy supply systems; monitoring services relating to energy efficiency performance; professional consultancy in the field of energy saving; rental of meters for the recording of energy consumption; research in the field of renewable energy; design and development of regenerative energy generation systems; energy auditing services relating to electricity and natural gas; technological analysis relating to energy and power needs of others; technological consultancy in the field of alternative energy generation; conducting research and technical project studies relating to the use of natural energy; construction drafting services; construction planning services; construction research services; providing quality assurance in the construction industry; design of solar photovoltaic systems; research and development services relating to solar cells and electricity generation; scientific and industrial research in the field of photovoltaics and solar collectors; technical development of structural elements, devices and systems for solar collectors and photovoltaic plants; mineral exploration services; mineral quality evaluation; scientific research in the field of environmental conservation; technical consulting in the field of environmental engineering; providing technological information about environmentally conscious and green innovations; environmental testing; environmental assessment services; underground utility mapping services.

**CI.45;**Political lobbying services relating to energy policies; inspection of factories for safety purposes; regulatory compliance auditing; licensing services relating to the manufacture of goods; monitoring services of gas alarm systems; electronic monitoring services for control of building environmental access and security systems; legal research in the field of environmental conservation.
